

SEPTEMBER 2009

| Date | Program Title, Number | Discipline |
|-------------------|--|-----------------------------|
| 9/1 Tuesday | Establishing Phlebotomy and POCT Competency Assessments (p.23) | Phlebotomy |
| 9/3 Thursday | A Review of Ancillary Testing in Gynecologic Cytology (p.7) | Cytology |
| 9/8 Tuesday | Strategies To Evaluate Critical Laboratory Value Limits: Opportunities To Save Time and Money (p.4) | Chemistry & Immunochemistry |
| 9/9 Wednesday | Code Sepsis: Clinical Microbiology's Role in the Diagnosis of Bloodstream Infections and Sepsis (p.21) | Molecular Diagnostics |
| 9/10 Thursday | Preplanning for a Major Event: Lessons Learned from the 2008 Democratic National Convention (p.27) | Transfusion Medicine |
| 9/11 Friday | Small Specimen Management in a Large-Volume World (p.13) | Histology |
| 9/15 Tuesday | Principles of Apheresis - A Beginner's Guide (p.27) | Transfusion Medicine |
| 9/16 Wednesday | Interferences in Coagulation Testing (p.10) | Hematology & Coagulation |
| 9/22 Tuesday | Why Is Everyone Talking About Laboratory Middleware? (p.4) | Chemistry & Immunochemistry |
| 9/23 Wednesday | HIPAA: What The Laboratory Staff Should Know (p.14) | Lab Operations |
| 9/24 Thursday | Choosing the Right Molecular Tests (p.7) | Cytology |
| 9/25 Friday | Pulmonary Manifestations of Systemic Diseases (p.24) | Surgical Pathology |
| 9/29 Tuesday | Pharmacogenetic Testing for Warfarin Sensitivity: What Is It? Does It Work? (p.10) | Hematology & Coagulation |
| 9/30 Wednesday | Inspections, Proficiency Testing and Guidelines (p.14) | Lab Operations |

OCTOBER 2009

| | | |
|--------------------|--|-----------------------------|
| 10/1 Thursday | Next Generation Sequencing: Principles and Translation to Diagnostics (p.21) | Molecular Diagnostics |
| 10/2 Friday | An Approach to Testicular Neoplasms (p.24) | Surgical Pathology |
| 10/6 Tuesday | Hospital and Blood Provider Disaster Preparedness: Working Together To Manage Inventory During a Disaster (p.28) | Transfusion Medicine |
| 10/7 Wednesday | Body Fluid Reference Range: Dangers and Opportunities (p.5) | Chemistry & Immunochemistry |
| 10/13 Tuesday | Use of Case Presentations for Anaerobic Bacteriology Update (p.18) | Microbiology |
| 10/14 Wednesday | Laboratory Diagnosis of Polyomavirus-Associated Nephropathy in Renal Transplant Recipients (p.22) | Molecular Diagnostics |
| 10/15 Thursday | Conquering Liver FNA Cytology (p.8) | Cytology |
| 10/16 Friday | The Pathology of Failed Total Joint Arthroplasty (p.25) | Surgical Pathology |
| 10/20 Tuesday | Clinically Significant Corynebacterium Species (p.18) | Microbiology |
| 10/21 Wednesday | Revised WHO Criteria for Classification and Diagnosis of BCR/ABL-Negative Myeloproliferative Neoplasms (p.11) | Hematology & Coagulation |
| 10/28 Wednesday | Fetal Fibronectin: A Review and Update (p.5) | Chemistry & Immunochemistry |
| 10/29 Thursday | The Way You Do the Things You Do: Microbiology Adventures with Orthopedic Specimens (p.19) | Microbiology |

NOVEMBER

2009

| Date | Program Title, Number | Discipline |
|--------------------|---|--------------------------|
| 11/3 Tuesday | Resolution of ABO/Rh Typing Discrepancies: Simple to Complex (p.28) | Transfusion Medicine |
| 11/4 Wednesday | Cell Culture-Based Viral Diagnostics: Where Are We Now? (p.19) | Microbiology |
| 11/6 Friday | Serrated Polyps in the Colon: Making Sense of the Alphabet Soup (p.25) | Surgical Pathology |
| 11/10 Tuesday | Reagent-Dependent Reactivity (p.29) | Transfusion Medicine |
| 11/11 Wednesday | Diagnostic Tests for Platelet Function Disorders (p.11) | Hematology & Coagulation |
| 11/12 Thursday | Basic Introduction to Circulating Tumor Cells(CTCs) and Cell Search (p.8) | Cytology |
| 11/13 Friday | What's the Buzz in the Laboratory About LEAN? (p.13) | Histology |
| 11/17 Tuesday | Preparation Strategies for the ASCP Phlebotomy Certification Exam (p.23) | Phlebotomy |
| 11/18 Wednesday | Proficiency Testing for Blood Banks and Transfusion Services (p.29) | Transfusion Medicine |
| 11/19 Thursday | Emerging Transfusion-Transmitted Parasitic Disease (p.20) | Microbiology |
| 11/20 Friday | Bone Tumors: Benign Versus Malignant (p.26) | Surgical Pathology |
| 11/24 Tuesday | Eliminating Unnecessary Tasks in the Hematology Laboratory (p.12) | Hematology & Coagulation |

DECEMBER

2009

| | | |
|--------------------|---|-----------------------------|
| 12/1 Tuesday | Hemoglobin Electrophoresis: A Case-Based Approach (p.12) | Hematology & Coagulation |
| 12/3 Thursday | CSI Liquid: Circumstantial Evidence (p.9) | Cytology |
| 12/4 Friday | Molecular Diagnostics of Solid Tumors for the Practicing Pathologist: What You Need To Know (p.26) | Surgical Pathology |
| 12/9 Wednesday | Lipoprotein-Associated Phospholipase A2 (Lp-PLA2): A Novel Cardiovascular Risk Marker and a Potential Therapeutic Target? (p.6) | Chemistry & Immunochemistry |
| 12/11 Friday | Update on the Staging System of Non-Small Cell Lung Carcinoma (p.26) | Surgical Pathology |
| 12/15 Tuesday | The Art of Managing People in Pathology Laboratories (p.15) | Lab Operations |
| 12/16 Wednesday | Calcium Metabolism: It's Not Just Sticks and Stones That Break Your Bones (p.6) | Chemistry & Immunochemistry |
| 12/17 Thursday | Gynecologic Cytopathology: Navigating the Legal/Regulatory Minefield (p.9) | Cytology |
