## A

- Acinic cell carcinoma
  - lung, 422
  - salivary glands, 571-572
- Acute interstitial pneumonia (Hamman-Rich disease), 401-402
- Acute nonspecific lymphadenitis, 470
- Acute proliferative glomerulonephritis, 533-534
- Acute self-limited enterocolitis, 259-260
- Adamantinoma of long bones, 628-630
- Adenocarcinoma, NOS, salivary glands, 580-581
- Adenocarcinoma
  - cervix (in situ), 152-153
  - cervix, 153-155
  - of colon/rectum, 278-281
  - ductal, 347-349
  - of esophagus, 232-233
  - of lung, 411-414
  - of prostate, 542
  - of the stomach, 244-247
- Adenofibroma, as benign lesion of the uterus, 163-164
- Adenoid cystic carcinoma
  - of lung, 422-423
  - salivary glands, 574-575
- Adenoma malignum, 151-152
- Adenomatoid tumor
  - as benign lesion of the uterus, 164-165
  - male reproductive system
    - tumors of paratesticular structures, 513-514
  - odontogenic, 556-557
- Adenomatous polyp (tubular adenoma), 282
- Adenomyoepithelioma, as myoepithelial lesions of the breast, 142-144
- Adenomyoma/adenomyomatosis, 338-339
- Adenomyoma/atypical polypoid adenomyoma, as benign lesion of the uterus, 165-166
- Adenomyosis, as benign lesion of the uterus, 166
- Adenosarcoma
  - cervix, 151-152
  - as malignant lesion of the uterus, 177-178
- Adenosquamous carcinoma, 383-384, 417-418
- Adrenal gland
  - adrenalcortical adenoma, 68-70
  - adrenalcortical carcinoma, 70-71
  - extra-adrenal paraganglioma, 78-81
  - ganglioneuroma, 71-72
  - myelolipoma, 81-82
  - neuroblastoma/ganglioneuroblastoma, 72-75
  - pheochromocytoma, 75-78
- Adrenalcortical adenoma, 68-70
- Adrenalcortical carcinoma, 70-71
- Adult fibrosarcoma variant, 659-660
- Adult granulosa cell tumor
  - sex cord/gonadal stromal tumors
    - ovary, 202-203
- Adult T-cell leukemia/lymphoma, mature T-cell/natural killer cell lymphoid neoplasms, 492
- Aerodigestive tract. *See* Upper aerodigestive tract
- AIDS-related lymphadenopathy, 473-474
- Alagille syndrome, 309
- Albright syndrome. *See* McCune-Albright syndrome
- Alcoholic liver disease, 295-297
- Allergic granulomatosis, 27-28
- $\alpha_1$ -antitrypsin (A1-AT) deficiency, 297-298, 333-337
- Alveolar hemorrhage syndromes, 394-396
- Alveolar soft part sarcoma, soft tissue and, 700-701
- Ameloblastic fibroma, odontogenic tumors and, 559-560
- Ameloblastoma, odontogenic tumors, 554-555
- Anaplastic (undifferentiated) carcinoma, 109-110
- Anaplastic astrocytoma, 34
- Anaplastic oligodendroglioma, 58
- Anaplastic large cell lymphoma, mature T-cell/natural killer cell lymphoid neoplasms and, 495-496
- Ancient schwannoma, 699
- Androblastoma. *See* Sertoli cell tumor

## Aneurysmal—Benign

Aneurysmal bone cyst, 599-601  
 solid variant, 600

Aneurysmal fibrous histiocytoma, 643

Angioimmunoblastic T-cell lymphoma, mature T-cell/  
 natural killer cell lymphoid neoplasms and, 494-495

Angiolipoma, 666

Angiomatoid fibrous histiocytoma, soft tissue and, 701-  
 702

Angiomyofibroma, of the vulva, 185

Angiomyolipoma, 318-319  
 adult tumors/tumorlike conditions of kidney, 528-530

Angiomyxoma  
 aggressive, vulva, 184-185  
 superficial, 708-710

Angiosarcoma  
 liver/gallbladder, 319-320  
 soft tissue vascular tumors, 713-714

Antitrypsin,  $\alpha_1$  deficiency (A1-AT), 297-298, 333-337

Apocrine carcinoma, as infiltrating carcinoma of the  
 breast, 139-140

Apocrine variant, of intraductal carcinoma, 118

Appliqué pattern, 502

Appressive angiomyxoma, of the vulva, 184-185

Arteritis. *See* Vasculitis

Askin tumor, 618, 698

Ask-Upmark kidney  
 tubulointerstitial nephritis, 541-542

Asteroid bodies, 404

Astler-Coller modification of Dukes classification, 281

Astrocytic tumors  
 anaplastic astrocytoma, 34  
 astrocytoma, 34-36  
 glioblastoma multiforme, 36-37  
 gliomatosis cerebri, 37-38  
 gliosarcoma, 38-39  
 infantile desmoplastic astrocytoma, 39-40  
 pilocytic astrocytoma, 40-41  
 pleomorphic xanthoastrocytoma, 42  
 subependymal giant cell astrocytoma (tuberous  
 sclerosis), 43-44

Astrocytoma, 34-36

Ataxia-telangiectasia, 726

Atypical anaplastic (malignant) meningiomas, 59-60

Atypical fibroxanthoma, soft tissue and, 640-641

Atypical papilloma, as papillary lesions of the breast, 122

Atypical polypoid adenomyoma, as benign lesion of the  
 uterus, 165-166

Atypical teratoid/rhabdoid tumor, 45-46

Autoimmune gastritis, 240-242

Autoimmune hepatitis, 298-300

Azzopardi effect, 410

**B**

Bacillary angiomatosis, 478

Bannayan-Zonana syndrome, 667

Barrett mucosa/Barrett dysplasia, 233-235

Basal cell adenoma, salivary glands, 585

Basaloid squamous cell carcinoma, 384-385

Beckwith-Wiedemann syndrome, 71, 359, 518-519, 726

Bednar tumor, 642

Benign lesions  
 adrenal gland  
 adrenal cortical adenoma, 68  
 ganglioneuroma, 71  
 bile duct  
 adenoma, 320  
 adenomyomatosis, 338  
 breast  
 fibrocystic changes, 112-113  
 microglandular adenosis, 113-114  
 radial scar, 115-116  
 sclerosing adenosis, 114-115  
 tubular adenoma, 116-117  
 cartilage  
 chondroblastoma, 590-592  
 chondromyxoid fibroma, 592-593  
 enchondroma, 593-594  
 enchondromatosis  
 Maffucci syndrome, 595  
 Ollier disease, 594-595  
 osteochondroma, 595-596  
 periosteal chondroma (juxtacortical chondroma),  
 596-597  
 osteoblastic lesions  
 osteoblastoma, 597-598  
 osteoid osteoma, 598-599

## Benign—Bones

- parathyroid gland
  - parathyroid hyperplasia, 82
  - parathyroid adenoma, 84
- salivary glands
  - basal cell adenoma, 585
  - benign mixed tumor (pleomorphic adenoma), 582-583
  - canalicular adenoma, 586
  - myoepithelioma, 583-584
  - oncocytoma (oncocytic metaplasia, nodular/diffuse oncocytosis), 586-587
  - Warthin tumor (cystadenoma lymphomatosum papilliferum), 587-588
- stomach
  - hyperplastic polyp, 253
  - inflammatory fibroid polyp, 255
  - leiomyoma, 248
  - mucosa-associated lymphoid tissue lymphoma, 256
- thyroid gland
  - fibrosing thyroiditis, 92
  - follicular adenoma, 99
  - Graves disease, 96
  - Hashimoto thyroiditis, 92
  - nodular hyperplasia, 97
  - oncocytic adenoma, 103
- uterus
  - adenofibroma, 163-164
  - adenomatoid tumor, 164-165
  - adenomyoma/atypical polypoid adenomyoma, 165-166
  - adenomyosis, 166
  - endometrial hyperplasia, 166-168
  - endometrial polyp, 168-169
  - intravascular leiomyomatosis, 169-170
  - leiomyoma, 170-172
  - stromal nodule, 172-173
- Benign mixed tumor (pleomorphic adenoma), salivary glands, 582-583
- Benign teratoma, of the mediastinum, 447-448
- Berger disease, glomerular diseases, 539-540
- Bile duct adenoma (peribiliary gland hamartoma), 320-321
- Bile duct carcinoma—extrahepatic, 339-340
- Bile duct carcinoma—intrahepatic, 322
- Bile duct microhamartoma (von Meyenburg or Moschowitz complex), 321
- Bile ducts
  - adenoma of, 320
  - anatomic abnormality, 343
  - bile duct carcinoma—extrahepatic, 339-340
  - biliary cystadenocarcinoma, 340-341
  - biliary cystadenoma, 341-342
  - damage in graft-vs-host disease, 302
  - intraoperative consultation, 293-294
  - loss of, 298, 302, 309-310
  - microhamartomas, 321
- Biliary cystadenocarcinoma, 340-341
- Biliary cystadenoma, 341-342
- Biphasic tumors of the breast
  - fibroadenoma, 126-127
  - juvenile fibroadenoma, 127-128
  - phyllodes tumor, 128-129
- Blue bone, chondro-osteoid calcified matrix, 600
- Bone cysts, 599-601
- Bone-related lesions
  - mandible/maxilla
    - central giant cell lesion, 565-566
    - cherubism, 566-567
    - melanotic neuroectodermal tumor of infancy, 567-568
- Bones and joints
  - adamantinoma of long bones, 628-630
  - benign cartilage lesions
    - chondroblastoma, 590-592
    - chondromyxoid fibroma, 592-593
    - enchondroma, 593-594
    - enchondromatosis
      - Maffucci syndrome, 595
      - Ollier disease, 594-595
    - osteochondroma, 595-596
    - periosteal chondroma (juxtacortical chondroma), 596-597
  - benign osteoblastic lesions
    - osteoblastoma, 597-598
    - osteoid osteoma, 598-599
  - chordoma, 630-631
  - cystic lesions
    - aneurysmal bone cyst, 599-601
    - solitary bone cyst (unicameral bone cyst), 601
  - fibrous, fibro/osseous/fibrohistiocytic lesions
    - fibrosarcoma of bone, 601-602
    - fibrous dysplasia, 603-604
    - malignant fibrous histiocytoma of bone, 605-606
    - nonossifying fibroma, 606-607
    - osteofibrous dysplasia, 607-608

## Bones—Burkitt

## Bones and joints (continued)

- giant cell lesions
  - giant cell reparative granuloma, 608-609
  - giant cell tumor of bone, 609-611
  - malignant giant cell tumor, 611
- intraoperative consultation, 590
- Langerhans cell histiocytosis, 631-633
- malignant cartilage lesions
  - chondrosarcoma, 612-614
  - clear-cell chondrosarcoma, 611-612
  - dedifferentiated chondrosarcoma, 614
  - mesenchymal chondrosarcoma, 615
- metabolic conditions
  - Paget disease (osteitis deformans), 616
  - tophaceous gout, 616-617
  - tophaceous pseudogout (chondrocalcinosis), 617-618
- neuroectodermal tumors
  - Askin tumor, 618
  - Ewing sarcoma, 618-619
  - primitive neuroectodermal tumor (PNET), 620
- osteosarcoma
  - conventional (intramedullary) osteosarcoma, 621-623
  - intracortical osteosarcoma, 623
  - parosteal (juxtacortical) osteosarcoma, 623-624
  - periosteal osteosarcoma, 624-625
  - telangiectatic osteosarcoma, 625
  - well-differentiated intramedullary osteosarcoma, 625-626
- specimen handling, 590
- synovial lesions
  - pigmented villonodular synovitis (diffuse-type giant tumor), 626-627
  - synovial chondromatosis, 627-628

## Branchial pouch differentiation tumors

- mediastinum
  - carcinoma showing thymus-like elements (CASTLE), 462-463
  - ectopic cervical thymoma, 463-464
  - ectopic hamartomatous thymoma, 464-465
  - sclerosing (fibrosing) mediastinitis, 466
  - spindle epithelial tumor with thymus-like elements (SETTLE), 465

## Breast

- benign lesions
  - fibrocystic changes, 112-113
  - microglandular adenosis, 113-114
  - radial scar, 115-116
  - sclerosing adenosis, 114-115
  - tubular adenoma, 116-117

- biphasic tumors
  - fibroadenoma, 126-127
  - juvenile fibroadenoma, 127-128
  - phyllodes tumor, 128-129
- infiltrating carcinoma
  - apocrine carcinoma, 139-140
  - invasive ductal carcinoma, 129-131
  - invasive lobular carcinoma, 131-132
  - medullary carcinoma, 133-135
  - metaplastic carcinoma, 136-139
  - mucinous (colloid) carcinoma, 133
  - tubular carcinoma, 132-133
- intraoperative consultation, 112
- male breast lesions
  - gynecomastia, 147
- malignant intraductal lesions
  - intraductal carcinoma
    - apocrine variant, 118
    - clinging carcinoma, 118-119
    - comedocarcinoma, 117
    - cribriform variant, 118
    - micropapillary variant, 118
    - solid variant, 118
- mesenchymal lesions
  - myofibroblastoma, 141-142
- myoepithelial lesions
  - adenomyoepithelioma, 142-144
  - malignant myoepithelioma (myoepithelial carcinoma), 145
  - myoepithelioma, 144-145
- nipple diseases
  - Paget disease, 146-147
- papillary carcinoma
  - lobular carcinoma in situ, 124-126
- papillary lesions
  - atypical papilloma, 122
  - carcinoma arising in a papilloma, 122-123
  - papillary carcinoma, 123-124
  - papilloma, 120
  - papillomatosis, 120-121
  - sclerosing papilloma, 121-122
- specimen handling, 112
- vascular lesions
  - pseudoangiomatous stromal hyperplasia, 141
- Bronchiolitis obliterans-organizing pneumonia, 403-404
- Bronchioloalveolar carcinoma, of lung, 414-415
- Bronchogenic cyst, 391-392
- Buccal mucosa and squamous cell carcinoma, 367
- Buerger disease, 26
- Burkitt lymphoma/leukemia, mature B cell lymphoid neoplasms and, 491

## Calcifying—Central

---

### C

- Calcifying aponeurotic fibroma, soft tissue fibroblastic tumors and, 651-652
- Calcifying epithelial odontogenic tumor (Pindborg tumor), 555-556
- Calcinosis cutis, primary biliary cirrhosis and, 310
- Call-Exner bodies, 202
- Canalicular adenoma, salivary glands, 586
- Carcinoid tumor, typical/atypical
  - of lung, 420-422
- Carcinoid tumors
  - ovary, 219-222
- Carcinoma arising in a papilloma, as papillary lesions of the breast, 122-123
- Carcinoma ex pleomorphic adenoma, salivary glands, 581-582
- Carcinoma showing thymus-like elements (CASTLE), mediastinum, 462-463
- Carcinosarcoma (malignant mixed müllerian tumor), as malignant lesion of the uterus, 178-179
- Cardiac myxoma, 8-10
- Cardiac syndromes
  - Ehlers-Danlos syndrome (EDS), 17-18
  - Marfan syndrome, 18-19
- Cardiovascular system
  - cardiac myxoma, 8-10
  - myocarditis, 19-21
  - papillary fibroelastoma, 10-11
  - primary cardiac sarcomas, 13-16
  - rhabdomyoma, 11-12
  - vasculitis
    - Churg-Strauss syndrome (allergic granulomatosis), 27-28, 398, 406
    - cutaneous leukocytoclastic vasculitis, 30
    - giant cell (temporal arteritis), 21-22
    - granulomatous angitis of CNS, 25
    - Henoch-Schönlein purpura, 29-30
    - Kawasaki disease, 24-25
    - microscopic polyangiitis, 28-29
    - polyarteritis nodosa, 23-24
    - Takayasu arteritis, 22-23
    - thromboangiitis obliterans (Buerger disease), 26
    - Wegener granulomatosis, 26-27
- Carney syndrome, 511, 687, 710, 726-727
- Carney triad, 432, 727
- Cartilage lesions
  - benign
    - chondroblastoma, 590-592
    - chondromyxoid fibroma, 592-593
    - enchondroma, 593-594
    - enchondromatosis
      - Maffucci syndrome, 595
      - Ollier disease, 594-595
    - osteochondroma, 595-596
    - periosteal chondroma (juxtacortical chondroma), 596-597
  - malignant
    - chondrosarcoma, 612-614
    - clear-cell chondrosarcoma, 611-612
    - dedifferentiated chondrosarcoma, 614
    - mesenchymal chondrosarcoma, 615
- Cartilaginous tumors
  - extraskeletal chondrosarcoma, 636-638
  - extraskeletal osteosarcoma, 638-639
  - myositis ossificans, 639-640
- Castleman disease, 474-476
- Cat-scratch disease, 472
- Celiac disease, 261-262
- Cellular fibrous histiocytoma, 643
- Cement lines, in Paget disease, 616
- Cementoblastoma, odontogenic tumors and, 558-559
- Central giant cell lesion
  - mandible/maxilla, 565-566
- Central nervous system
  - astrocytic tumors
    - anaplastic astrocytoma, 34
    - astrocytoma, 34-36
    - glioblastoma multiforme, 36-37
    - gliomatosis cerebri, 37-38
    - gliosarcoma, 38-39
    - infantile desmoplastic astrocytoma, 39-40
    - pilocytic astrocytoma, 40-41
    - pleomorphic xanthoastrocytoma, 42
    - subependymal giant cell astrocytoma (tuberous sclerosis), 43-44
  - choroid plexus tumors
    - choroid plexus papilloma/carcinoma, 44-45

## Central—Colon

- Central nervous system (continued)
- embryonal tumors
    - atypical teratoid/rhabdoid tumor, 45-46
    - medulloblastoma, 46-48
    - retinoblastoma, 48-49
  - ependymal tumors
    - ependymoma, 49-50
    - subependymoma, 51
  - germ cell tumors
    - choriocarcinoma, 54
    - embryonal carcinoma, 53
    - germinoma (seminoma), 52
    - teratoma, 54
    - yolk sac tumor (endodermal sinus tumor), 53
  - intraoperative consultation, 32-33
  - neuronal cell tumors
    - central neurocytoma, 54-55
    - dysembryoplastic neuroepithelial tumor, 55-56
  - oligodendroglial neoplasms
    - ganglioglioma/gangliocytoma, 56-57
    - oligodendroglioma, 57-59
  - specimen handling, 33
  - tumors of meningotheial cells
    - atypical anaplastic (malignant) meningiomas, 59-60
    - meningioma, 60-62
  - tumors of pineal gland
    - pineoblastoma, 62-63
    - pineocytoma, 63-64
  - tumors of uncertain origin
    - hemangioblastoma, 64-65
- Central neurocytoma, 54-55
- Cerebrotendinous xanthomatosis, 651
- Cervix
- adenocarcinoma, 153-155
  - adenocarcinoma in situ, 152-153
  - adenosarcoma, 151-152
  - squamous cell carcinoma, 155-157
- Charcot-Böttcher filament bundles, 512
- Charcot-Leyden crystals, 28
- Cherubism, 566-567
- Cholangiocarcinoma, 322
- Chondroblastoma, cartilage lesions (benign), 590-592
- Chondromyxoid fibroma, cartilage lesions (benign), 592-593
- Chondrosarcoma, 612-614
- Chondrosarcoma, extraskelatal, 636-638
- Chordoma, 630-631
- Chorioadenoma destruens, 178-179
- Choriocarcinoma, 54
  - ovary, 190-191
  - male reproductive system
    - germ cell tumors, 505-506
  - of the mediastinum, 445
  - trophoblastic disease, 162-163
- Choroid plexus papilloma/carcinoma, 44-45
- Chronic glomerulonephritis, 540
- Chronic lymphocytic leukemia/small lymphocytic lymphoma, mature B cell lymphoid neoplasms, 484
- Churg-Strauss syndrome (allergic granulomatosis), 27-28, 398, 406
- Cirrhosis, 300-302
- Clear cell adenocarcinoma, salivary glands, 577-578
- Clear cell carcinoma, of the vagina, 182-184
- Clear cell sarcoma
  - pediatric tumors/tumorlike conditions of kidney, 520-522
  - soft tissue neuroectodermal tumors and, 681-682
- Clear cell tumors
  - surface epithelial-stromal tumors
    - ovary, 216-217
- Clear cell tumors (sugar tumor), 433
- Clear-cell chondrosarcoma, bones and joints, 611-612
- Clinging carcinoma, of intraductal carcinoma, 118-119
- Coffin-Siris syndrome, 727
- Collagenous colitis, 268-269
- Colon
- neoplastic
    - adenocarcinoma, 278-281
    - giant condyloma (verruccous carcinoma), 285
    - intestinal polyps, 282-285
    - multiple polyp syndromes, 285-289
    - neuroendocrine tumors of rectum, 291-292
    - neuroendocrine tumors of small intestine appendix & colon, 289-291

## Colon—Embryonal

- non-neoplastic
  - collagenous colitis, 268-269
  - graft-versus-host disease (GVHD), 269-270
  - Hirschsprung disease, 270-272
  - ischemic colitis, 272-273
  - lymphatic colitis, 273-274
  - solitary rectal ulcer syndrome, 277-278
  - ulcerative colitis, 274-277
- Complete hydatidiform mole, trophoblastic disease and, 159-161
- Congenital aganglionic megacolon, 270-272
- Congenital hepatic fibrosis, 303
- Congenital pulmonary airway malformation (congenital cystic adenomatoid malformation), 392-393
- Constrictive obliterative bronchiolitis, 404
- Conventional (intramedullary) osteosarcoma, 621-623
- Cowden disease (multiple hamartomatous syndrome), 57, 100, 285, 288, 667
- Craniopharyngioma, 87-89
- Crescentic glomerulonephritis, 534-535
- CREST syndrome, 310
- Cribriform variant, of intraductal carcinoma, 118
- Crohn disease, 262-265
- Cronkhite-Canada syndrome, 254, 286
- Cryptogenic organizing pneumonia, 407-408
- Crystals of Reinke, 509
- Cutaneous leukocytoclastic vasculitis, 30
- Cylindrical cell papilloma, 373-374
- Cystadenocarcinoma, 349-350, 352
- Cystadenoma, 352
- Cystadenoma lymphomatosum papilliferum, 587-588
- Cystic chondroblastoma, 591
- Cystic fibrosis, 303-304
- Cystic lesions
  - bones/joints
    - aneurysmal bone cyst, 599-601
    - solitary bone cyst (unicameral bone cyst), 601
- Cystic neoplasms
  - mucinous
    - cystadenocarcinoma, 352
    - cystadenoma, 352
    - tumor of borderline malignant potential, 352-353
  - serous
    - cystadenocarcinoma, 349-350
    - microcystic adenoma, 350-351
    - oligocystic adenoma, 351-352
- Cystic nephroma, pediatric tumors/tumorlike conditions of kidney, 523-524
- D**
  - Dabska tumor (malignant endovascular papillary angioendothelioma), 715-717
  - Dallas criteria, 19
  - Dedifferentiated chondrosarcoma, 614
  - Dendritic cell neoplasms
    - lymph nodes
      - follicular dendritic cell sarcoma/tumor, 468-469
  - Dendritic cell sarcoma/tumor, 468-469
  - Denys-Drash syndrome, 518-519
  - Dentigerous cyst, 561
  - Dermatofibrosarcoma protuberans, 641-642
  - Dermatopathic lymphadenitis (lipomelanosis reticularis of Pautrier), 476
  - Dermoid cyst of the ovary, 223-225
  - Desmoplastic small round cell tumor, 702-703
  - Desquamative interstitial pneumonia, 400-401
  - Devon family syndrome, 286
  - Diffuse alveolar damage, 398-399
  - Diffuse large B-cell lymphoma, 490
  - Diffuse lesions of pleura/peritoneum, 439-440
  - Digestive tract. *See* Gastrointestinal tract; Upper aerodigestive tract
  - Discrete lesions of pleura/peritoneum, 441-442
  - Ductal adenocarcinoma, 347-349
  - Dysembryoplastic neuroepithelial tumor, 55-56
  - Dysgerminoma
    - ovary, 191-192
- E**
  - Echinococcal cyst (hydatid cyst), 323-324
  - Echinococcus granulosus*, *E multilocularis*, 323
  - Ectopic cervical thymoma, mediastinum, 463-464
  - Ectopic hamartomatous thymoma, mediastinum, 464-465
  - Ehlers-Danlos syndrome (EDS), 17-18
  - Elastofibroma, soft tissue fibroblastic tumors, 652-653
  - Embryonal carcinoma, 53
    - germ cell tumors
      - ovary, 192-193
    - of the mediastinum, 446

## Embryonal—Ependymoma

- Embryonal sarcoma (undifferentiated sarcoma), 324-325
- Embryonal tumors
- atypical teratoid/rhabdoid tumor, 45-46
  - medulloblastoma, 46-48
  - retinoblastoma, 48-49
- Embryonic carcinoma
- male reproductive system
  - germ cell tumors, 502-503
- Emperipolexis, 477
- Enchondroma
- cartilage lesions (benign) and, 593-594
- Enchondromatosis
- cartilage lesions (benign)
  - Maffucci syndrome, 595
  - Ollier disease, 594-595
- Endocrine system
- adrenal gland
  - adrenal cortical adenoma, 68-70
  - adrenal cortical carcinoma, 70-71
  - extra-adrenal paraganglioma, 78-81
  - ganglioneuroma, 71-72
  - myelolipoma, 81-82
  - neuroblastoma/ganglioneuroblastoma, 72-75
  - pheochromocytoma, 75-78
  - parathyroid gland
  - intraoperative consultation, 82
  - parathyroid adenoma, 84-86
  - parathyroid carcinoma, 86-87
  - parathyroid hyperplasia, 82-84
  - specimen handling, 82
  - pituitary gland
  - craniopharyngioma, 87-89
  - intraoperative consultation, 87
  - pituitary adenoma, 89-90
  - specimen handling, 87
  - thyroid gland
  - tumor-like conditions
  - fibrosing (Riedel) thyroiditis, 92-93
  - Graves disease (diffuse toxic goiter), 96-97
  - Hashimoto thyroiditis, 93-94
  - intraoperative consultation, 91-92
  - nodular hyperplasia (multinodular goiter), 97-98
  - specimen handling, 92
  - thyroiditis, 94-96
  - tumors
  - follicular adenoma, 99-100
  - follicular carcinoma, 100-101
  - medullary carcinoma, 101-103
  - oncocytic (Hürthle cell) adenoma, 103-104
  - oncocytic (Hürthle cell) carcinoma, 104-105
  - papillary carcinoma, 105-108
  - poorly differentiated (insular) carcinoma, 108-109
  - undifferentiated (anaplastic) carcinoma, 109-110
- Endocrine tumors
- acinar cell carcinoma
  - pancreas, 355-356
  - general findings, 359-360
  - pancreatoblastoma
  - pancreas, 358-359
  - poorly differentiated
  - small cell carcinoma, 362
  - solid-pseudopapillary epithelial tumor
  - pancreas, 356-357
  - well-differentiated
  - enterochromaffin cell tumor, 361-362
  - gastrinoma, 361
  - glucagonoma, 361
  - insulinoma, 360
  - nonfunctioning tumors, 362
  - somatostatinoma, 361
  - VIPoma, 361
- Endodermal sinus tumor
- male reproductive system
  - germ cell tumors, 503-505
  - of the mediastinum, 449-450
- Endodermal sinus tumor of the ovary, 194-196
- Endogenous pneumoconiosis, 395
- Endometrial carcinoma, 173-177
- Endometrial hyperplasia, 166-168
- Endometrial polyp, 168-169
- Endometrial stromal tumor, 179-181
- Endometrioid tumors
- surface epithelial-stromal tumors
  - ovary, 215-216
- Endometriosis interna, 166
- Enterochromaffin cell tumor, 361-362
- Enteropathy-type T-cell lymphoma (refractory sprue), mature T-cell/natural killer cell lymphoid neoplasms and, 493-494
- Eosinophilic pneumonia, 406
- Ependymal tumors
- ependymoma, 49-50
  - subependymoma, 51
- Ependymoma, 49-50

## Epithelial—Female

- Epithelial tumors (benign)
- salivary glands
    - basal cell adenoma, 585
    - benign mixed tumor (pleomorphic adenoma), 582-583
    - canalicular adenoma, 586
    - myoepithelioma, 583-584
    - oncocytoma (oncocytic metaplasia, nodular/diffuse oncocytosis), 586-587
    - Warthin tumor (cystadenoma lymphomatosum papilliferum), 587-588
- Epithelial tumors (malignant)
- salivary glands
    - acinic cell carcinoma, 571-572
    - adenocarcinoma, NOS, 580-581
    - adenoid cystic carcinoma, 574-575
    - carcinoma ex pleomorphic adenoma, 581-582
    - clear cell adenocarcinoma, 577-578
    - epithelial-myoepithelial carcinoma, 576-577
    - mucoepidermoid carcinoma, 573-574
    - oncocytic carcinoma, 578-579
    - polymorphous low-grade adenocarcinoma, 575-576
    - salivary duct carcinoma, 579-580
- Epithelial-myoepithelial carcinoma, salivary glands, 576-577
- Epithelioid fibrous histiocytoma, 643
- Epithelioid hemangioendothelioma, 330-331, 427-428
- Epithelioid sarcoma, soft tissue and, 703-704
- proximal variant, 704
- Eruption cyst, odontogenic cysts and, 561-562
- Esophageal dysfunction, primary biliary cirrhosis and, 310
- Esophagus
- adenocarcinoma, 232-233
  - Barrett mucosa/Barrett dysplasia, 233-235
  - gastroesophageal reflux, 236-237
  - squamous cell carcinoma, 238-240
- Esthesioneuroblastoma, 370-371
- Evan syndrome, 351
- Ewing sarcoma, 618-619
- extraskelatal, 682-682
  - primitive neuroectodermal tumor and, 371-372, 620
- Exostoses, multiple hereditary, 596
- Extra-adrenal paraganglioma, 78-81
- Extra-articular pigmented villonodular synovitis, 648-649
- Extrahepatic bile ducts
- adenomyoma/adenomyomatosis, 338-339
  - bile duct carcinoma-extrahepatic, 339-340
  - biliary cystadenocarcinoma, 340-341
  - biliary cystadenoma, 341-342
- Extranodal marginal zone B-cell lymphoma, 487
- Extranodal NK/T-cell lymphoma, mature T-cell/natural killer cell lymphoid neoplasms and, 492-493
- Extrapulmonary inflammatory pseudotumor, 658-659
- Extraskelatal Ewing sarcoma, 682-683
- Extraskelatal osseous/cartilaginous tumors
- extraskelatal chondrosarcoma, 636-638
  - soft tissue
    - extraskelatal osteosarcoma, 638-639
    - myositis ossificans, 639-640
- F**
- Familial adenomatous polyposis, 286
- Familial juvenile polyposis, 286
- Familial medullary thyroid cancer, 727
- FAMMM, 349
- Fatty liver, 304-306
- Female reproductive tract
- cervix
    - adenocarcinoma, 153-155
    - adenocarcinoma in situ, 152-153
    - adenosarcoma, 151-152
    - squamous cell carcinoma, 155-157
  - intraoperative consultation, 150-151
  - specimen handling, 151
  - trophoblastic disease
    - choriocarcinoma, 162-163
    - complete hydatidiform mole, 159-161
    - invasive hydatidiform mole, 161-162
    - partial hydatidiform mole, 158-159
    - placental site trophoblastic tumor, 157-158
  - uterus
    - benign lesions
      - adenofibroma, 163-164
      - adenomatoid tumor, 164-165
      - adenomyoma/atypical polypoid adenomyoma, 165-166
      - adenomyosis, 166
      - endometrial hyperplasia, 166-168
      - endometrial polyp, 168-169
      - intravascular leiomyomatosis, 169-170
      - leiomyoma, 170-172
      - stromal nodule, 172-173
    - malignant lesions
      - adenosarcoma, 177-178
      - carcinosarcoma (malignant mixed müllerian tumor), 178-179
      - endometrial carcinoma, 173-177
      - endometrial stromal tumors, 179-181
      - leiomyosarcoma, 181-182, 675
- vagina
- clear cell carcinoma, 182-184
- vulva
- angiomyofibroblastoma, 185
  - appressive angiomyxoma, 184-185
  - Paget disease, 186-187
  - papillary hidradenoma, 187

## Fibroadenoma—Gastrinoma

---

### Fibroadenoma

biphasic tumors of the breast, 126-127

### Fibroblastic/myofibroblastic tumors

#### soft tissue

- calcifying aponeurotic fibroma, 651-652
- elastofibroma, 652-653
- fibroma of tendon sheath, 653
- fibromatosis, 654-656
- fibrosarcoma, 656-657
- infantile digital fibromatosis, 657-658
- inflammatory myofibroblastic tumor, 658-659
- low-grade fibromyxoid sarcoma, 650-660
- low-grade myofibroblastic sarcoma, 660
- myofibroma/myofibromatosis, 660-661
- myxofibrosarcoma, 662-663
- myxoinflammatory fibroblastic sarcoma, 661-662
- nodular fasciitis, 663-664

Fibrocystic changes of the breast, 112-113

### Fibrohistiocytic tumors

#### soft tissue

- atypical fibroxanthoma, 640-641
- dermatofibrosarcoma protuberans, 641-642
- fibrous histiocytoma, 642-644
- giant cell fibroblastoma, 644-645
- juvenile xanthogranuloma, 645
- malignant giant cell tumor of tendon sheath/PVNS, 646
- pleomorphic malignant fibrous histiocytoma, 646-648
- tenosynovial giant cell tumor
  - diffuse type, 648-649
  - localized type, 649-650
- xanthoma, 650-651

Fibrolamellar hepatocellular carcinoma, 328-329

Fibrolipoma, 666

Fibroma of tendon sheath, 653

Fibroma/cellular fibroma

- stromal tumors
  - ovary, 206-207

Fibromatosis, soft tissue fibroblastic tumors and, 654-656

Fibromyxoid sarcoma, soft tissue fibroblastic tumors and, 650-660

Fibrosarcoma of bone, 601-602

Fibrosarcoma, 656-657

- sclerosing epithelioid fibrosarcoma, 657

Fibrosing (Riedel) thyroiditis, 92-93

Fibrous cortical defect, 606-607

### Fibrous dysplasia

of bones and joints, 603-604

### Fibrous, fibro/osseous/fibrohistiocytic lesions

#### bones/joints

- fibrosarcoma of bone, 601-602
- fibrous dysplasia, 603-604
- malignant fibrous histiocytoma of bone, 605-606
- nonossifying fibroma, 606-607
- osteofibrous dysplasia, 607-608

Fibrous hamartoma of infancy, soft tissue and, 704-705

### Fibrous histiocytoma

soft tissue and, 642-644

### Fissural cysts

#### mandible/maxilla

- nasolabial/nasoalveolar cyst, 565
- nasopalatine duct cyst, 565

Floor of mouth squamous cell carcinoma, 367

Florid synovitis, 648-649

Focal nodular hyperplasia, 336-337

Focal proliferative/necrotizing glomerulonephritis, 540

Focal segmental glomerulosclerosis, glomerular diseases, 537-538

Follicular adenoma, 99-100

Follicular carcinoma, 100-101

Follicular dendritic cell sarcoma/tumor, 468-469

Follicular lymphoma, mature B cell lymphoid neoplasms and, 488-489

Fröhlich syndrome, 667

Fundic gland polyp, 247-248

## G

### Gallbladder

- adenomyoma/adenomyomatosis, 338-339
- bile duct carcinoma-extrahepatic, 339-340
- biliary cystadenocarcinoma, 340-341
- biliary cystadenoma, 341-342
- gallbladder carcinoma, 342-343
- intraoperative consultation, 293-294

Ganglioglioma/gangliocytoma, 56-57

Ganglioneuroblastoma, of the mediastinum, 452-453

Ganglioneuroma, 71-72

of the mediastinum, 451

Gardner syndrome, 107, 281, 287, 655

Gastric leiomyoma, of the stomach, 248-249

Gastrinoma, 361

## Gastroesophageal—Giant

Gastroesophageal reflux, 236-237

Gastrointestinal stromal tumors  
of the stomach, 249-252

Gastrointestinal tract

colon/rectum

neoplastic

adenocarcinoma, 278-281  
giant condyloma (verrucous carcinoma), 285  
intestinal polyps, 282-285  
multiple polyp syndromes, 285-289  
neuroendocrine tumors of rectum, 291-292  
neuroendocrine tumors of small intestine appen-  
dix & colon, 289-291

non-neoplastic

collagenous colitis, 268-269  
graft-versus-host disease (GVHD), 269-270  
Hirschsprung disease, 270-272  
ischemic colitis, 272-273  
lymphatic colitis, 273-274  
solitary rectal ulcer syndrome, 277-278  
ulcerative colitis, 274-277

esophagus

adenocarcinoma, 232-233  
Barrett mucosa/Barrett dysplasia, 233-235  
gastroesophageal reflux, 236-237  
squamous cell carcinoma, 238-240

intraoperative consultation, 230-232

small intestine

neoplastic

neuroendocrine tumors of duodenum, 267-268

non-neoplastic

acute self-limited enterocolitis, 259-260  
celiac disease, 261-262  
Crohn disease, 262-265  
microvillous inclusion disease, 265-266  
Whipple disease, 266

specimen handling, 232

stomach

neoplastic

adenocarcinoma, 244-247  
fundic gland polyp, 247-248  
gastric leiomyoma, 248-249  
gastrointestinal stromal tumors, 249-252  
glomus tumor, 252-253  
hyperplastic polyp, 253-254  
inflammatory fibroid polyp, 255-256  
mucosa-associated lymphoid tissue lymphoma  
(MALToma), 256-258  
neuroendocrine tumors, 258-259

non-neoplastic

autoimmune gastritis, 240-242  
*Helicobacter pylori* gastritis, 242-243  
multifocal atrophic gastritis, 243-244

Germ cell tumors

choriocarcinoma, 54

embryonal carcinoma, 53

germinoma (seminoma), 52

male reproductive system

choriocarcinoma, 505-506

embryonic carcinoma, 502-503

gonadoblastoma, 512-513

intratubular germ cell neoplasia, 498-499

mixed germ cell tumors, 507-508

seminoma, 499-500

spermatocytic seminoma, 500-501

teratoma, 506-507

yolk sac tumor (endodermal sinus tumor), 503-505

mediastinum

benign teratoma, 447-448

choriocarcinoma, 445

embryonal carcinoma, 446

germinoma (seminoma/dysgerminoma), 446-447

malignant teratoma, 448-449

mixed germ cell tumor, 450-451

yolk sac tumor (endodermal sinus tumor), 449-450

ovary

choriocarcinoma, 190-191

dysgerminoma, 191-192

embryonal carcinoma, 192-193

gonadoblastoma, 196-197

mixed malignant germ cell tumors, 196

polyembryoma, 193-194

yolk sac tumor (endodermal sinus tumor), 194-196

teratoma, 54

yolk sac tumor (endodermal sinus tumor), 53

Germinoma (seminoma), 52

Germinoma (seminoma/dysgerminoma), of the medi-  
astinum, 446-447

Giant cell (temporal arteritis), 21-22

Giant cell angiofibroma, 705-706

Giant cell fibroblastoma, 644-645

Giant cell interstitial pneumonia, 402

Giant cell tumor of tendon sheath, 649-650

Giant condyloma (verrucous carcinoma), 285

Giant cell lesions

bones/joints

giant cell reparative granuloma, 608-609

giant cell tumor of bone, 609-611

malignant giant cell tumor, 611

Giant cell reparative granuloma, 608-609

## Giant—Hepatocellular

- Giant cell tumor of bone, 609-611
- Gingiva squamous cell carcinoma, 367
- Gingival cyst, 562
- Glandular odontogenic cyst, 562-563
- Gleason system, of prostate, 542-545
- Glioblastoma multiforme, 36-37
- Gliomatosis cerebri, 37-38
- Gliosarcoma, 38-39
- Glomerular diseases
  - acute proliferative glomerulonephritis, 533-534
  - chronic glomerulonephritis, 540
  - focal proliferative/necrotizing glomerulonephritis, 540
  - focal segmental glomerulosclerosis, 537-538
  - IgA nephropathy (Berger disease), 539-540
  - membranoproliferative glomerulonephritis, 538-539
  - membranous glomerulonephritis, 535-536
  - membranous glomerulopathy, 535-536
  - minimal change disease (lipoid nephrosis), 536-537
  - rapidly progressive (crescentic) glomerulonephritis, 534-535
- Glomerulonephritis
  - acute proliferative, 533-534
  - chronic, 540
  - focal segmental, 537-538
  - focal/necrotizing, 540
  - membranoproliferative, 538-539
  - membranous, 535-536
  - rapidly progressive (crescentic), 534-535
- Glomus tumor
  - soft tissue vascular tumors, 714-715
  - of the stomach, 252-253
- Glucagonoma, 361
- Goiter, 97-98
- Goltz syndrome, 611
- Gonadal stromal tumors
  - male reproductive system
    - large cell calcifying Sertoli cell tumor, 511-512
    - Leydig cell tumor, 508-509
    - Sertoli cell tumor, 510
    - Sertoli-Leydig cell tumor, 511
- Gonadoblastoma
  - germ cell tumors
    - ovary, 196-197
  - male reproductive system
    - tumor containing germ cell/sex cord/gonadal stromal elements, 512-513
- Gorlin syndrome (nevoid basal cell carcinoma syndrome), 47, 62, 207, 727
- Gout, tophaceous, 616-617
- Grade (Gleason system), of prostate, 542-545
- Graft-versus-host disease (GVHD), 269-270, 302-303
- Granular cell tumors, 434-435
  - soft tissue neuroectodermal tumors and, 683-684
- Granulomatous angitis of CNS, 25
- Graves disease (diffuse toxic goiter), 96-97
- Grenz zone, 641
- Gruber-Frantz tumor, 356-357
- Gynecomastia, 147
- ## H
- Hairy cell leukemia, mature B cell lymphoid neoplasms and, 485-486
- Hamartoma, 431-432
- Hamman-Rich disease, 401-402
- Hashimoto thyroiditis, 93-94
- Helicobacter pylori* gastritis, 242-243
- Hemangioblastoma, 64-65
- Hemangi endothelioma, soft tissue vascular tumors, 715-717
- Hemangioma, soft tissue vascular tumors, 718-721
- Hemangiopericytoma, 706-707
  - lipomatous, 706
- Hemochromatosis, 306-307
- Henoch-Schönlein purpura, 29-30
- Hepatitis
  - neonatal hepatitis, 307-309
  - viral hepatitis, 313-317
- Hepatoblastoma, 331-333
- Hepatocellular (liver cell) adenoma, 334-335

## Hepatocellular—Inflammatory

Hepatocellular carcinoma, 325-328

Hepatolenticular degeneration, 317-318

Hereditary nonpolyposis colorectal cancer, 287, 349

Hibernoma, soft tissue, 664-665

Hirschsprung disease, 270-272

Histiocytic fibroma, 606-607

Histiocytic necrotizing lymphadenitis (Kikuchi-Fujimoto disease), 470

Histiocytic/dendritic cell neoplasms

- lymph nodes
- follicular dendritic cell sarcoma/tumor, 468-469

Histiocytoma

- aneurysmal fibrous, 643
- cellular fibrous, 643
- epithelioid fibrous, 643

Histiocytosis X, 426-427

Hodgkin lymphoma, 479-482

Hürthle cell (oncocyctic) tumors

- adenoma, 103-104
- carcinoma, 104-105

Hydatid cyst, 323-324

Hypercalcemic type

- small cell carcinoma
- ovary, 226-227

Hyperplastic diseases of lymph nodes

- acute nonspecific lymphadenitis, 470
- AIDS-related lymphadenopathy, 473-474
- Castleman disease, 474-476
- cat-scratch disease, 472
- dermatopathic lymphadenitis (lipomelanosis reticularis of Pautrier), 476
- histiocytic necrotizing lymphadenitis (Kikuchi-Fujimoto disease), 470
- infectious mononucleosis, 474
- lymphogranuloma venereum, 472-473
- progressive transformation of germinal centers, 477-478
- sarcoidosis, 470-471
- sinus histiocytosis with massive lymphadenopathy (Rosai-Dorfman disease), 476-477
- toxoplasmosis, 471-472

Hyperplastic polyp, of the stomach, 253-254

Hypersensitivity pneumonitis, 405-406

## Hypopharynx

- adenosquamous carcinoma, 383-384
- basaloid squamous cell carcinoma, 384-385
- intraoperative consultation, 364-365
- lymphoepithelial carcinoma, 387
- papillary squamous cell carcinoma, 386-387
- spindle cell carcinoma, 385-386
- squamous cell carcinoma, 380-383

**I**

- IgA nephropathy (Berger disease), glomerular diseases, 539-540

Immature B/T cell lymphoid neoplasms

- precursor B-lymphoblastic leukemia/lymphoma, 482-483
- precursor T-lymphoblastic leukemia/lymphoma, 483-484

Immature teratoma, 54, 445-448

- ovary, 196, 222-223, 225

Inclusion body fibromatosis, 657-658

Infantile desmoplastic astrocytoma, 39-40

Infantile digital fibromatosis, 657-658

Infantile hemangioendothelioma, 329-330

Infectious mononucleosis, 474

Infiltrating carcinoma of the breast

- apocrine carcinoma, 139-140
- invasive ductal carcinoma, 129-131
- invasive lobular carcinoma, 131-132
- medullary carcinoma, 133-135
- metaplastic carcinoma, 136-139
- mucinous (colloid) carcinoma, 133
- tubular carcinoma, 132-133

Inflammatory cardiovascular lesions

- myocarditis, 19-21
- vasculitis
- Churg-Strauss syndrome (allergic granulomatosis), 27-28, 398, 406
- cutaneous leukocytoclastic vasculitis, 30
- giant cell (temporal arteritis), 21-22
- granulomatous angitis of CNS, 25
- Henoch-Schönlein purpura, 29-30
- Kawasaki disease, 24-25
- microscopic polyangiitis, 28-29
- polyarteritis nodosa, 23-24
- Takayasu arteritis, 22-23
- thromboangiitis obliterans (Buerger disease), 26
- Wegener granulomatosis, 26-27

## Inflammatory—Intraoperative

---

- Inflammatory cloacogenic polyp, 278
- Inflammatory fibroid polyp  
of the stomach, 255-256
- Inflammatory leiomyosarcoma, 675
- Inflammatory myofibroblastic tumor, 430-431  
soft tissue fibroblastic tumors and, 658-659
- Inflammatory myxohyaline tumor of distal extremities, 661-662
- Inflammatory/hyperplastic diseases  
lymph nodes  
acute nonspecific lymphadenitis, 470  
AIDS-related lymphadenopathy, 473-474  
Castleman disease, 474-476  
cat-scratch disease, 472  
dermatopathic lymphadenitis (lipomelanosis reticularis of Pautrier), 476  
histiocytic necrotizing lymphadenitis (Kikuchi-Fujimoto disease), 470  
infectious mononucleosis, 474  
lymphogranuloma venereum, 472-473  
progressive transformation of germinal centers, 477-478  
sarcoidosis, 470-471  
sinus histiocytosis with massive lymphadenopathy (Rosai-Dorfman disease), 476-477  
toxoplasmosis, 471-472
- Insulinoma, 360
- Insular (poorly differentiated) carcinoma, 108-109
- Interdigitating dendritic cell sarcoma/tumor, 469
- Intestinal ganglioneuromatosis, 84, 287-288, 695
- Intestinal polyps  
adenomatous polyp (tubular adenoma), 282  
ganglioneuroma, 282  
hamartomatous (Peutz-Jeghers polyp), 282-283  
hyperplastic polyp, 283-284  
inflammatory fibroid polyp, 284  
inflammatory polyp, 284  
juvenile polyp, 283  
lymphoid polyp, 283  
sessile serrated adenoma (SSA), 284-285  
traditional serrated adenoma (TSA), 285
- Intracortical osteosarcoma, 623
- Intraductal carcinoma of breast  
apocrine variant, 118  
clinging carcinoma, 118-119  
cribriform variant, 118  
micropapillary variant, 118  
solid variant, 118
- Intraductal papillary-mucinous tumor of pancreas  
adenoma, 354  
carcinoma (non-invasive), 354  
general findings, 353-354  
papillary-mucinous carcinoma, 354  
tumors of borderline malignant potential, 354-355
- Intraoperative consultation, 1-4  
bile ducts, 294  
bladder, urinary, 546  
bones, 590  
breast, 112  
central nervous system, 32  
cervix, 150  
female reproductive tract, 150  
fibrous tumors, 636  
gallbladder, 294  
gastrointestinal tract, 230  
joints, 590  
lipomatous tumors, 636  
liver, 294  
lung, 390  
lymph nodes, 468  
male reproductive system, 498  
mediastinum, 444  
mouth, 364  
nasal cavity, 364  
oropharynx, 364  
ovary, 190  
pancreas, 346  
parathyroid gland, 82  
pituitary gland, 87  
prostate, 542  
salivary glands, 570  
soft tissue, 636  
skeletal lesions, 590  
testicle, 498  
thyroid gland, 91  
upper aerodigestive tract, 364  
urinary tract, 516  
uterus, 150  
vagina, 150

## Intratubular—Kayser

---

Intratubular germ cell neoplasia  
 male reproductive system  
 germ cell tumors, 498-499

Intravascular bronchioloalveolar tumor, 427-428

Intravascular hemangioendothelioma of Masson, 719

Intravascular leiomyomatosis, of the uterus, 169-170

Invasive ductal carcinoma, of the breast, 129-131

Invasive hydatidiform mole, trophoblastic disease and, 161-162

Invasive lobular carcinoma, as infiltrating carcinoma of the breast, 131-132

Ischemic colitis, 272-273

## J

Jaffe-Campanacci syndrome, 607

### Joints

adamantinoma of long bones, 628-630

benign cartilage lesions  
 chondroblastoma, 590-592  
 chondromyxoid fibroma, 592-593  
 enchondroma, 593-594  
 enchondromatosis  
 Maffucci syndrome, 595  
 Ollier disease, 594-595  
 osteochondroma, 595-596  
 periosteal chondroma (juxtacortical chondroma), 596-597

benign osteoblastic lesions  
 osteoblastoma, 597-598  
 osteoid osteoma, 598-599

chordoma, 630-631

cystic lesions  
 aneurysmal bone cyst, 599-601  
 solitary bone cyst (unicameral bone cyst), 601

fibrous, fibro/osseous/fibrohistiocytic lesions  
 fibrosarcoma of bone, 601-602  
 fibrous dysplasia, 603-604  
 malignant fibrous histiocytoma of bone, 605-606  
 nonossifying fibroma, 606-607  
 osteofibrous dysplasia, 607-608

giant cell lesions  
 giant cell reparative granuloma, 608-609  
 giant cell tumor of bone, 609-611  
 malignant giant cell tumor, 611

intraoperative consultation, 590

Langerhans cell histiocytosis, 631-633

malignant cartilage lesions  
 chondrosarcoma, 612-614  
 clear-cell chondrosarcoma, 611-612  
 dedifferentiated chondrosarcoma, 614  
 mesenchymal chondrosarcoma, 615

metabolic conditions  
 Paget disease (osteitis deformans), 616  
 tophaceous gout, 616-617  
 tophaceous pseudogout (chondrocalcinosis), 617-618

neuroectodermal tumors  
 Askin tumor, 618  
 Ewing sarcoma, 618-619  
 primitive neuroectodermal tumor (PNET), 620

osteosarcoma  
 conventional (intramedullary) osteosarcoma, 621-623  
 intracortical osteosarcoma, 623  
 parosteal (juxtacortical) osteosarcoma, 623-624  
 periosteal osteosarcoma, 624-625  
 telangiectatic osteosarcoma, 625  
 well-differentiated intramedullary osteosarcoma, 625-626

specimen handling, 590

synovial lesions  
 pigmented villonodular synovitis (diffuse-type giant tumor), 626-627  
 synovial chondromatosis, 627-628

Juvenile fibroadenoma  
 biphasic tumors of the breast, 127-128

Juvenile granulosa cell tumor  
 sex cord-stromal cell tumors  
 ovary, 203-204

Juvenile xanthogranuloma, 645

Juxtacortical osteosarcoma, 623-624

## K

Kaposi sarcoma, 479  
 soft tissue vascular tumors, 721-723

Kasabach-Merritt syndrome, 329, 717, 721

Kawasaki disease, 24-25

Kayser-Fleischer rings, 317

## Kidney—Liver

## Kidney

- adult tumors/tumorlike conditions
  - angiomyolipoma, 528-530
  - medullary fibroma, 533
  - metanephric adenoma, 530-531
  - oncocytoma, 532-533
  - renal cell carcinoma, 524-528
  - renal cortical adenoma, 531
  - renomedullary interstitial cell tumor, 533
  - tubulo-papillary adenoma, 531
- glomerular diseases
  - acute proliferative glomerulonephritis, 533-534
  - chronic glomerulonephritis, 540
  - focal proliferative/necrotizing glomerulonephritis, 540
  - focal segmental glomerulosclerosis, 537-538
  - IgA nephropathy (Berger disease), 539-540
  - lipoid nephrosis, 536-537
  - membranoproliferative glomerulonephritis, 538-539
  - membranous glomerulonephritis, 535-536
  - membranous glomerulopathy, 535-536
  - minimal change disease (lipoid nephrosis), 536-537
  - rapidly progressive (crescentic) glomerulonephritis, 534-535
- pediatric tumors/tumorlike conditions
  - clear cell sarcoma, 520-522
  - cystic nephroma, 523-524
  - mesoblastic nephroma, 519-520
  - nephroblastoma (Wilms tumor), 517-519
  - rhabdoid tumor, 522-523
- tubulointerstitial nephritis
  - Ask-Upmark kidney, 541-542
  - xanthogranulomatous pyelonephritis, 541

Kikuchi-Fujimoto disease, 470

Klatskin tumor, 339

Klippel-Trenaunay syndrome, 519

**L**

Langerhans cell granuloma, 426-427

Langerhans cell histiocytosis

- bones/joints and, 631-633

Large cell calcifying Sertoli cell tumor

- male reproductive system
- sex cord/gonadal stromal tumors, 511-512

Large cell carcinoma, of lung, 416-417

## Larynx

- adenosquamous carcinoma, 383-384
- basaloid squamous cell carcinoma, 384-385
- intraoperative consultation, 364-365
- lymphoepithelial carcinoma, 387
- papillary squamous cell carcinoma, 386-387
- spindle cell carcinoma, 385-386
- squamous cell carcinoma, 380-383

Lateral periodontal cyst, 563

Leiomyoma, 673-675

- as benign lesion of the uterus, 170-172

Leiomyomatosis, 169-170

Leiomyosarcoma, 675-677

- as malignant lesion of the uterus, 181-182

Lesions, inflammatory. *See* Inflammatory lesions

## Leydig cell tumor

- male reproductive system
- sex cord/gonadal stromal tumors, 508-509
- steroid cell tumors
- ovary, 204-205

Li-Fraumeni syndrome, 71, 622, 727

Lip squamous cell carcinoma, 367-368

Lipase hypersecretion syndrome, 356

Lipoblastoma/lipoblastomatosis, soft tissue, 665

Lipoid nephrosis, glomerular diseases, 536-537

Lipoma, soft tissue, 252, 665-667

- angioliipoma, 518, 666-667
- chondroid lipoma, 666-667
- fibrolipoma, 653, 666-667
- myolipoma, 666-667
- myxolipoma, 184, 666-667
- pleomorphic lipoma, 666-667
- spindle cell lipoma, 184, 665-667

## Lipomatous tumors

- hibernoma, 664-665
- lipoblastoma/lipoblastomatosis, 665
- lipoma, 665-667
- liposarcoma, 667-669

## Liposarcoma

- soft tissue, 667-669

## Liver/gallbladder/extrahepatic bile ducts

- gallbladder/bile ducts
  - adenomyoma/adenomyomatosis, 338-339
  - bile duct carcinoma-extrahepatic, 339-340
  - biliary cystadenocarcinoma, 340-341
  - biliary cystadenoma, 341-342
  - gallbladder carcinoma, 342-343

## Liver—Lung

## Liver(continued)

- intraoperative consultation, 293-294
- non-neoplastic
  - $\alpha_1$ -antitrypsin (A1-AT) deficiency, 297-298
  - alcoholic liver disease, 295-297
  - autoimmune hepatitis, 298-300
  - cirrhosis, 300-302
  - congenital hepatic fibrosis, 303
  - cystic fibrosis, 303-304
  - fatty liver, 304-306
  - graft-versus-host disease (GVHD), 302-303
  - hemochromatosis, 306-307
  - neonatal hepatitis, 307-309
  - primary biliary cirrhosis, 309-310
  - primary sclerosing cholangitis, 311-312
  - veno-occlusive disease, 312-313
  - viral hepatitis, 313-317
  - Wilson disease (hepatolenticular degeneration), 317-318
- specimen handling, 294
- tumors/tumorlike conditions
  - angiomyolipoma, 318-319
  - angiosarcoma, 319-320
  - bile duct adenoma (peribiliary gland hamartoma), 320-321
  - bile duct carcinoma-intrahepatic (cholangiocarcinoma), 322
  - bile duct microhamartoma (von Meyenburg or Moschowitz complex), 321
  - echinococcal cyst (hydatid cyst), 323-324
  - embryonal sarcoma (undifferentiated sarcoma), 324-325
  - epithelioid hemangioendothelioma, 330-331
  - fibrolamellar hepatocellular carcinoma, 328-329
  - focal nodular hyperplasia, 336-337
  - hepatoblastoma, 331-333
  - hepatocellular (liver cell) adenoma, 334-335
  - hepatocellular carcinoma, 325-328
  - infantile hemangioendothelioma, 329-330
  - mesenchymal hamartoma, 335-336
  - nodular regenerative hyperplasia, 337-338
- Lobular carcinoma in situ, as papillary lesions of the breast, 124-126
- Localized colitis cystica profunda, 277
- Loeffler syndrome, 406
- Low-grade fibromyxoid sarcoma, soft tissue fibroblastic tumors and, 650-660
- Low-grade myofibroblastic sarcoma
  - soft tissue fibroblastic tumors and, 660

## Lung

- interstitial lung disease
  - acute interstitial pneumonia (Hamman-Rich ), 401-402
  - bronchiolitis obliterans-organizing pneumonia, 403-404
  - constrictive obliterative bronchiolitis, 404
  - desquamative interstitial pneumonia, 400-401
  - diffuse alveolar damage, 398-399
  - eosinophilic pneumonia, 406
  - giant cell interstitial pneumonia, 402
  - hypersensitivity pneumonitis, 405-406
  - idiopathic (cryptogenic organizing) pneumonia, 407-408
  - lymphoid interstitial pneumonia, 403
  - nonspecific interstitial pneumonia/fibrosis, 402
  - pulmonary alveolar proteinosis, 406-407
  - respiratory bronchiolitis-associated interstitial lung disease, 401
  - sarcoidosis, 404-405
  - usual interstitial pneumonia, 399-400
  - variants, 398
- intraoperative consultation, 390-391
- lymphoid/histiocytic tumors
  - Langerhans cell histiocytosis, 426-427
- malignant epithelial tumors
  - adenocarcinoma, 411-414
  - adenosquamous carcinoma, 417-418
  - bronchioloalveolar carcinoma, 414-415
  - carcinoid tumor, typical/atypical, 420-422
  - large cell carcinoma, 416-417
  - salivary gland type tumors
    - acinic cell carcinoma, 422
    - adenoid cystic carcinoma, 422-423
    - mucoepidermoid carcinoma, 424
    - mucous gland adenoma, 425
    - pleomorphic adenoma, 425-426
  - sarcomatoid carcinoma, 418-420
  - small cell carcinoma, 410-411
  - squamous cell carcinoma, 408-409
- mesenchymal tumors
  - epithelioid hemangioendothelioma, 427-428
  - inflammatory myofibroblastic tumor, 430-431
  - lymphangioleiomyomatosis, 428-430
  - pleuropulmonary blastoma, 428
- miscellaneous tumors
  - clear cell tumors (sugar tumor), 433
  - granular cell tumors, 434-435
  - hamartoma, 431-432
  - meningotheial-like nodules, 435
  - sclerosing hemangioma, 432-433
- non-neoplastic lesions
  - alveolar hemorrhage syndromes, 394-396
  - bronchogenic cyst, 391-392
  - congenital cystic adenomatoid malformation 392-393
  - congenital pulmonary airway malformation 392-393
  - pulmonary sequestration, 393-394
  - Wegener granulomatosis, 397-398
- specimen handling, 391

## Lymph—Lymphoid

## Lymph nodes

- histiocytic/dendritic cell neoplasms
  - follicular dendritic cell sarcoma/tumor, 468-469
- inflammatory/hyperplastic diseases
  - acute nonspecific lymphadenitis, 470
  - AIDS-related lymphadenopathy, 473-474
  - Castleman disease, 474-476
  - cat-scratch disease, 472
  - dermatopathic lymphadenitis (lipomelanosis reticularis of Pautrier), 476
  - histiocytic necrotizing lymphadenitis (Kikuchi-Fujimoto disease), 470
  - infectious mononucleosis, 474
  - lymphogranuloma venereum, 472-473
  - progressive transformation of germinal centers, 477-478
  - sarcoidosis, 470-471
  - sinus histiocytosis with massive lymphadenopathy (Rosai-Dorfman disease), 476-477
  - toxoplasmosis, 471-472
- intraoperative consultation, 468
- lymphoid neoplasms
  - immature B/T cells
    - precursor B-lymphoblastic leukemia/lymphoma, 482-483
    - precursor T-lymphoblastic leukemia/lymphoma, 483-484
  - mature B cell neoplasms
    - Burkitt lymphoma/leukemia, 491
    - chronic lymphocytic leukemia/small lymphocytic lymphoma, 484
    - diffuse large B-cell lymphoma, 490
    - extranodal marginal zone B-cell lymphoma (MALT lymphoma), 487
    - follicular lymphoma, 488-489
    - hairy cell leukemia, 485-486
    - lymphoplasmacytic lymphoma/Waldenström macroglobulinemia, 485
    - mantle cell lymphoma, 489-490
    - mediastinal (thymic) large B-cell lymphoma, 490-491
    - nodal marginal zone B-cell lymphoma, 487-488
    - plasma cell neoplasms, 486-487
    - splenic marginal zone lymphoma, 488

- mature T-cell/natural killer cell neoplasms
  - adult T-cell leukemia/lymphoma, 492
  - anaplastic largecell lymphoma, 495-496
  - angioblastic T-cell lymphoma, 494-495
  - enteropathy-type T-cell lymphoma (refractory sprue), 493-494
  - extranodal NK/T-cell lymphoma, nasal type (lethal midline granuloma), 492-493
  - mycosis fungoides/Sézary syndrome, 494
  - peripheral T-cell lymphoma (unspecified), 495

## malignant lymphoma

- Hodgkin lymphoma, 479-482
  - non-Hodgkin lymphoma, 256, 276, 444, 481, 488-489
- specimen handling, 468
- vascular tumors
- bacillary angiomatosis, 478
  - Kaposi sarcoma, 479

## Lymphadenitis, 470

## Lymphangioliomyomatosis, 428-430

## Lymphangioma, 670

## Lymphangiomatosis, 671

## Lymphangiomyoma/lymphangiomyomatosis, 671-672

## Lymphangiosarcoma, 673

## Lymphatic colitis, 273-274

## Lymphatic tumors

- lymphangioma, 670
- lymphangiomatosis, 671
- lymphangiomyoma/lymphangiomyomatosis, 671-672
- lymphangiosarcoma, 673

## Lymphoepithelial carcinoma, 387

## Lymphogranuloma venereum, 472-473

## Lymphoid interstitial pneumonia, 403

## Lymphoid neoplasms

- immature B/T cells
  - precursor B-lymphoblastic leukemia/lymphoma, 482-483
  - precursor T-lymphoblastic leukemia/lymphoma, 483-484

## Lymphoid—Malignant

- mature B cell neoplasms
    - Burkitt lymphoma/leukemia, 491
    - chronic lymphocytic leukemia/small lymphocytic lymphoma, 484
    - diffuse large B-cell lymphoma, 490
    - extranodal marginal zone B-cell lymphoma, 487
    - follicular lymphoma, 488-489
    - hairy cell leukemia, 485-486
    - lymphoplasmacytic lymphoma/Waldenström macroglobulinemia, 485
    - mantle cell lymphoma, 489-490
    - mediastinal (thymic) large B-cell lymphoma, 490-491
    - nodal marginal zone B-cell lymphoma, 487-488
    - plasma cell neoplasms, 486-487
    - splenic marginal zone lymphoma, 488
  - mature T-cell/natural killer cell neoplasms
    - adult T-cell leukemia/lymphoma, 492
    - anaplastic large cell lymphoma, 495-496
    - angiimmunoblastic T-cell lymphoma, 494-495
    - enteropathy-type T-cell lymphoma (refractory sprue), 493-494
    - extranodal NK/T-cell lymphoma, nasal type (lethal midline granuloma), 492-493
    - mycosis fungoides/Sézary syndrome, 494
    - peripheral T-cell lymphoma (unspecified), 495
  - Lymphoid/histiocytic tumors of lung
    - Langerhans cell histiocytosis, 426-427
  - Lymphoplasmacytic lymphoma/Waldenström macroglobulinemia, 485
  - Lynch syndrome, 287
- M**
- Male breast lesions, gynecomastia, 147
  - Male reproductive system
    - germ cell tumors
      - choriocarcinoma, 505-506
      - embryonic carcinoma, 502-503
      - intratubular germ cell neoplasia, 498-499
      - mixed germ cell tumors, 507-508
      - seminoma, 499-500
      - spermatocytic seminoma, 500-501
      - teratoma, 506-507
      - yolk sac tumor (endodermal sinus tumor), 503-505
    - intraoperative consultation, 498
    - sex cord/gonadal stromal tumors
      - large cell calcifying Sertoli cell tumor, 511-512
      - Leydig cell tumor, 508-509
      - Sertoli cell tumor, 510
      - Sertoli-Leydig cell tumor, 511
    - specimen handling, 498
    - tumor containing germ cell/sex cord/gonadal stromal elements
      - gonadoblastoma, 512-513
    - tumors of paratesticular structures
      - adenomatoid tumor, 513-514
  - Malignant extrarenal rhabdoid tumor, 707-708
  - Malignant fibrous histiocytoma of bone, 605-606
  - Malignant giant cell tumor of tendon sheath/PVNS, 646
  - Malignant giant cell tumor of bones and joints, 611
  - Malignant intraductal lesions,
    - apocrine variant, 118
  - Malignant intraductal lesions
    - intraductal carcinoma
      - clinging carcinoma, 118-119
      - comedocarcinoma, 117
      - cribriform variant, 118
      - micropapillary variant, 118
      - solid variant, 118
  - Malignant lesions
    - breast
      - infiltrating carcinoma
        - apocrine carcinoma, 139-140
        - invasive ductal carcinoma, 129-131
        - invasive lobular carcinoma, 131-132
        - medullary carcinoma, 133-135
        - metaplastic carcinoma, 136-139
        - mucinous (colloid) carcinoma, 133
        - tubular carcinoma, 132-133
      - intraductal carcinoma
        - apocrine variant, 118
        - clinging carcinoma, 118-119
        - comedocarcinoma, 117
        - cribriform variant, 118
        - micropapillary variant, 118
        - solid variant, 118
      - myofibroblastoma, 141-142
      - malignant myoepithelioma (myoepithelial carcinoma), 145
    - cartilage lesions
      - chondrosarcoma, 612-614
        - clear-cell chondrosarcoma, 611-612
        - dedifferentiated chondrosarcoma, 614
        - mesenchymal chondrosarcoma, 615
    - salivary glands
      - acinic cell carcinoma, 571-572
      - adenocarcinoma, NOS, 580-581
      - adenoid cystic carcinoma, 574-575
      - carcinoma ex pleomorphic adenoma, 581-582
      - clear cell adenocarcinoma, 577-578
      - epithelial-myoepithelial carcinoma, 576-577
      - mucoepidermoid carcinoma, 573-574
      - oncocytic carcinoma, 578-579
      - polymorphous low-grade adenocarcinoma, 575-576
      - salivary duct carcinoma, 579-580
    - uterus
      - adenosarcoma, 177-178
      - carcinosarcoma (malignant mixed müllerian tumor), 178-179
      - endometrial carcinoma, 173-177
      - endometrial stromal tumors, 179-181
      - leiomyosarcoma, 181-182

## Malignant—Maxilla

- Malignant lymphoma
- Hodgkin, 479-482
  - non-Hodgkin, 256, 276, 444, 481, 488-489
- Malignant melanoma of soft parts, 681-682
- Malignant mesenchymoma, 708
- Malignant mesothelioma of pleura/peritoneum, 441-442
- Malignant mixed müllerian tumor, of the uterus, 178-179
- Malignant myoepithelioma (myoepithelial carcinoma), of the breast, 145
- Malignant oligodendroglioma, 58
- Malignant peripheral nerve sheath tumor
- of the mediastinum, 451
  - soft tissue neuroectodermal tumors and, 684-686
- Malignant teratoma
- of the mediastinum, 448-449
- Mandible/maxilla
- bone-related lesions
    - central giant cell lesion, 565-566
    - cherubism, 566-567
    - melanotic neuroectodermal tumor of infancy, 567-568
  - fissural cysts
    - nasolabial/nasoalveolar cyst, 565
    - nasopalatine duct cyst, 565
  - odontogenic cysts
    - dentigerous cyst, 561
    - eruption cyst, 561-562
    - gingival cyst, 562
    - glandular odontogenic cyst, 562-563
    - lateral periodontal cyst, 563
    - odontogenic keratocyst, 563-565
    - radicular cyst, 564
  - odontogenic tumors
    - adenomatoid odontogenic tumor, 556-557
    - ameloblastic fibroma, 559-560
    - ameloblastoma, 554-555
    - calcifying epithelial odontogenic tumor (Pindborg tumor), 555-556
    - cementoblastoma, 558-559
    - odontogenic fibroma, 557-558
    - odontogenic myxoma, 557
    - odontoma, 559
    - squamous odontogenic tumor, 560-561
- Mantle cell lymphoma, mature B cell lymphoid neoplasms and, 489-490
- Marfan syndrome, 18-19
- Masson, intravascular hemangioendothelioma of, 719
- Mature B cell lymphoid neoplasms
- Burkitt lymphoma/leukemia, 491
  - chronic lymphocytic leukemia/small lymphocytic lymphoma, 484
  - diffuse large B-cell lymphoma, 490
  - extranodal marginal zone B-cell lymphoma (MALT lymphoma), 487
  - follicular lymphoma, 488-489
  - hairy cell leukemia, 485-486
  - lymphoplasmacytic lymphoma/Waldenström macroglobulinemia, 485
  - mantle cell lymphoma, 489-490
  - mediastinal (thymic) large B-cell lymphoma, 490-491
  - nodal marginal zone B-cell lymphoma, 487-488
  - plasma cell neoplasms, 486-487
  - splenic marginal zone lymphoma, 488
- Mature cystic teratoma of ovary (dermoid cyst), 223-225
- Mature T-cell/natural killer cell lymphoid neoplasms
- adult T-cell leukemia/lymphoma, 492
  - anaplastic large cell lymphoma, 495-496
  - angiimmunoblastic T-cell lymphoma, 494-495
  - enteropathy-type T-cell lymphoma (refractory sprue), 493-494
  - extranodal NK/T-cell lymphoma
    - nasal type (lethal midline granuloma), 492-493
    - mycosis fungoides/Sézary syndrome, 494
    - peripheral T-cell lymphoma (unspecified), 495
- Mature teratoma of ovary (solid), 225
- Maxilla
- bone-related lesions
    - central giant cell lesion, 565-566
    - cherubism, 566-567
    - melanotic neuroectodermal tumor of infancy, 567-568
  - fissural cysts
    - nasolabial/nasoalveolar cyst, 565
    - nasopalatine duct cyst, 565
  - odontogenic cysts
    - dentigerous cyst, 561
    - eruption cyst, 561-562
    - gingival cyst, 562
    - glandular odontogenic cyst, 562-563
    - lateral periodontal cyst, 563
    - odontogenic keratocyst, 563-565
    - radicular cyst, 564

## Maxilla—Microcystic

- odontogenic tumors
  - adenomatoid odontogenic tumor, 556-557
  - ameloblastic fibroma, 559-560
  - ameloblastoma, 554-555
  - calcifying epithelial odontogenic tumor (Pindborg tumor), 555-556
  - cementoblastoma, 558-559
  - odontogenic fibroma, 557-558
  - odontogenic myxoma, 557
  - odontoma, 559
  - squamous odontogenic tumor, 560-561
- Mazabraud syndrome, 710, 727
- McCune-Albright syndrome, 710, 727-728
- Mediastinal (thymic) large B-cell lymphoma, mature B cell lymphoid neoplasms and, 490-491
- Mediastinal ependymoma, 452
- Mediastinum
  - germ cell tumors
    - benign teratoma, 447-448
    - choriocarcinoma, 445
    - embryonal carcinoma, 446
    - germinoma (seminoma/dysgerminoma), 446-447
    - malignant teratoma, 448-449
    - mixed germ cell tumor, 450-451
    - yolk sac tumor (endodermal sinus tumor), 449-450
  - intraoperative consultation, 444
  - neurogenic tumors/tumors of paraganglia
    - ganglioneuroma, 451
    - malignant peripheral nerve sheath tumor, 451
    - mediastinal ependymoma, 452
    - neuroblastoma/ganglioneuroblastoma, 452-453
    - neurofibroma, 453
    - neurofibromatosis, 453-454
    - paraganglioma, 454
    - pigmented neuroectodermal tumor of infancy, 454
    - primitive neuroectodermal tumor (PNET), 454-455
    - schwannoma (neurilemmoma/neurinoma), 455
  - specimen handling, 444
  - thymic/branchial pouch differentiation tumors
    - carcinoma showing thymus-like elements (CASTLE), 462-463
    - ectopic cervical thymoma, 463-464
    - ectopic hamartomatous thymoma, 464-465
    - sclerosing (fibrosing) mediastinitis, 466
    - spindle epithelial tumor with thymus-like elements (SETTLE), 465
  - thymus
    - thymic carcinoid, 458-460
    - thymic carcinoma, 460-462
    - thymoma, 455-458
- Medullary carcinoma, 101-103
  - as infiltrating carcinoma of the breast, 133-135
- Medullary fibroma (renomedullary interstitial cell tumor), adult tumors/tumorlike conditions of kidney, 533
- Medulloblastoma, 46-48
- Melanotic neuroectodermal tumor of infancy, 372
  - mandible/maxilla and, 567-568
  - soft tissue neuroectodermal tumors and, 686
- Melanotic progonoma, 567-568, 686
- Melanotic schwannoma, soft tissue neuroectodermal tumors and, 687
- Membranoproliferative glomerulonephritis, 538-539
- Membranous glomerulonephritis/glomerulopathy, glomerular diseases, 535-536
- Meningioma, 60-62
- Meningothelial cell tumors
  - atypical anaplastic (malignant) meningiomas, 59-60
  - meningioma, 60-62
- Meningothelial-like nodules (pulmonary chemodectomas), 435
- Merkel cell carcinoma
  - soft tissue neuroectodermal tumors and, 688
- Mesenchymal tumors
  - lung
    - epithelioid hemangioendothelioma, 427-428
    - inflammatory myofibroblastic tumor, 430-431
    - lymphangioliomyomatosis, 428-430
    - pleuropulmonary blastoma, 428
- Mesenchymal chondrosarcoma, 615
- Mesenchymal hamartoma, 335-336
- Mesenchymal lesions of the breast, myofibroblastoma, 141-142
- Mesoblastic nephroma, pediatric tumors/tumorlike conditions of kidney, 519-520
- Metanephric adenoma, adult tumors/tumorlike conditions of kidney, 530-531
  - metanephric adenofibroma, 530
- Metaplastic carcinoma, as infiltrating carcinoma of the breast, 136-139
- Metaplastic lesions, of urinary bladder, 546-547
- Microcystic adenoma, 350-351

## Microglandular—Myofibroblastic

---

- Microglandular adenosis of the breast, 113-114
- Micropapillary variant, of intraductal carcinoma, 118
- Microscopic polyangiitis, 28-29
- Microvillous inclusion disease, 265-266
- Minimal change disease (lipoid nephrosis)
  - glomerular diseases, 536-537
- Mirizzi syndrome, 343
- Miscellaneous tumors
  - lung
    - clear cell tumors (sugar tumor), 433
    - granular cell tumors, 434-435
    - hamartoma, 431-432
    - meningotheial-like nodules (pulmonary chemodectomas), 435
    - sclerosing hemangioma, 432-433
- Mixed germ cell tumor
  - male reproductive system, 507-508
  - mediastinum, 450-451
  - ovary, 196
- Mucinous (colloid) carcinoma
  - as infiltrating carcinoma of the breast, 133
- Mucinous cystic neoplasms
  - cystadenocarcinoma of pancreas, 352
  - cystadenoma of pancreas, 352
  - tumor of borderline malignant potential of pancreas, 352-353
- Mucinous tumors
  - surface epithelial-stromal tumors
    - ovary, 212-214
- Mucocutaneous lymph node syndrome, 24
- Mucoepidermoid carcinoma
  - of lung, 424
  - salivary glands, 573-574
- Mucosa-associated lymphoid tissue lymphoma (MALToma), of the stomach, 256-258
- Mucous gland adenoma, of lung, 425
- Müllerian tumor, as malignant lesion of the uterus, 178-179
- Multifocal atrophic gastritis, 243-244
- Multinodular goiter, 97-98
- Multiple endocrine neoplastic (MEN) syndromes, 728-729
- Multiple hamartomatous syndrome, 285
- Multiple hereditary exostoses, 596
- Multiple hyperplastic polyposis syndrome, 288
- Multiple osteochondromas, 596
- Multiple polyp syndromes, 285-289
  - Cowden disease (multiple hamartomatous syndrome), 57, 100, 285, 288, 667
  - Cronkhite-Canada syndrome, 254, 286
  - Devon family syndrome, 286
  - familial adenomatous polyposis, 286
  - familial juvenile polyposis, 286
  - Gardner syndrome, 107, 281, 287, 655
  - hereditary nonpolyposis colorectal cancer, 287, 349
  - intestinal ganglioneuromatosis, 84, 287-288, 695
  - multiple hyperplastic polyposis syndrome, 288
  - Oldfield syndrome, 288
  - Peutz-Jeghers syndrome, 288
  - Ravalcaba-Myhre-Smith syndrome, 288
  - Torre-Muir syndrome, 288
  - Turcot syndrome, 288
- Musculoskeletal system. *See* Soft tissue; Bones and joints
- Mycosis fungoides/Sézary syndrome, 494
- Microscopic colitis, 273-274
- Myelolipoma, 81-82
- Myocarditis, 19-21
- Myoepithelial lesions of the breast
  - adenomyoepithelioma, 142-144
  - malignant myoepithelioma, 145
  - myoepithelioma, 144-145
- Myoepithelioma
  - as myoepithelial lesions of the breast, 144-145
  - salivary glands, 583-584
- Myofibroblastic sarcoma
  - soft tissue fibroblastic tumors and, 660
- Myofibroblastic tumors
  - soft tissue
    - calcifying aponeurotic fibroma, 651-652
    - elastofibroma, 652-653
    - fibroma of tendon sheath, 653
    - fibromatosis, 654-656
    - fibrosarcoma, 656-657
    - infantile digital fibromatosis, 657-658
    - inflammatory myofibroblastic tumor, 658-659
    - low-grade fibromyxoid sarcoma, 650-660
    - low-grade myofibroblastic sarcoma, 660
    - myofibroma/myofibromatosis, 660-661
    - myxofibrosarcoma, 662-663
    - myxoinflammatory fibroblastic sarcoma, 661-662
    - nodular fasciitis, 663-664

## Myofibroblastoma—Neuroectodermal

---

Myofibroblastoma, as mesenchymal lesions of the breast, 141-142

Myofibroma/myofibromatosis

soft tissue fibroblastic tumors and, 660-661

Myogenic tumors

leiomyoma, 673-675

leiomyosarcoma, 675-677

rhabdomyoma, 677-678

rhabdomyosarcoma, 678-681

Myolipoma, 666

Myopericytoma, soft tissue vascular tumors, 723

Myositis ossificans, 639-640

Myxofibrosarcoma, 662-663

Myxoid leiomyosarcoma, 675

Myxoid malignant fibrous histiocytoma, 662-663

Myxoinflammatory fibroblastic sarcoma, 661-662

Myxolipoma, 666

Myxoma, 708-710

## N

Nasal cavity

Ewing sarcoma, 371-372

melanotic neuroectodermal tumor of infancy, 372

olfactory neuroblastoma, 370-371

oncocytic papilloma, 373-374

primitive neuroectodermal tumor (PNET), 371-372

Schneiderian papilloma, 372-373

sinonasal carcinoma, 374-377

Nasal type (lethal midline granuloma), extranodal

NK/T-cell lymphoma, 492-493

Nasolabial/nasoalveolar cyst, 565

Nasopalatine duct cyst, 565

Nasopharyngeal angiofibroma, 379-380

Nasopharyngeal carcinoma, 377-379

Natural killer cell lymphoid neoplasms

adult T-cell leukemia/lymphoma, 492

anaplastic largecell lymphoma, 495-496

angiimmunoblastic T-cell lymphoma, 494-495

enteropathy-type T-cell lymphoma, 493-494

extranodal NK/T-cell lymphoma

nasal type (lethal midline granuloma), 492-493

mycosis fungoides/Sézary syndrome, 494

peripheral T-cell lymphoma (unspecified), 495

Neonatal hepatitis, 307-309

Neoplasms, cystic

mucinous

cystadenocarcinoma, 352

cystadenoma, 352

tumor of borderline malignant potential, 352-353

serous

cystadenocarcinoma, 349-350

microcystic adenoma, 350-351

oligocystic adenoma, 351-352

Nephritis (tubulointerstitial)

Ask-Upmark kidney, 541-542

xanthogranulomatous pyelonephritis, 541

Nephroblastoma (Wilms tumor), 517-519

Neurilemmoma/neurinoma

mediastinal, 455

soft tissue, 699-700

Neuroblastoma/ganglioneuroblastoma, 72-75

mediastinal, 452-453

Neuroectodermal tumors

bones and joints

Askin tumor, 618

Ewing sarcoma, 618-619

primitive neuroectodermal tumor (PNET), 620

soft tissue

clear cell sarcoma, 681-682

extraskeletal Ewing sarcoma, 682-683

granular cell tumors, 683-684

malignant peripheral nerve sheath tumor, 684-686

melanotic neuroectodermal tumor of infancy, 686

melanotic schwannoma, 687

Merkel cell carcinoma, 688

neurofibroma, 689-690

neurofibromatosis, 690-693

neuroma, 693-695

neurothekeoma, 695-696

neurotropic-desmoplastic melanoma, 696

perineurioma, 696-697

PNET/peripheral neuroepithelioma, 697-698

schwannoma (neurilemmoma), 699-700

## Neuroendocrine—Oligodendroglioma

---

- Neuroendocrine carcinoma of skin, 688
  - Neuroendocrine tumors of duodenum, 267-268
  - Neuroendocrine tumors, of the stomach, 258-259
  - Neuroendocrine tumors of rectum, 291-292
  - Neuroendocrine tumors of small intestine, appendix & colon, 289-291
  - Neurofibroma
    - of the mediastinum, 453
    - soft tissue neuroectodermal tumors and, 689-690
  - Neurofibromatosis
    - of the mediastinum, 453-454
    - soft tissue neuroectodermal tumors and, 690-693
  - Neurogenic tumors/tumors of paraganglia
    - of the mediastinum
      - ganglioneuroma, 451
      - malignant peripheral nerve sheath tumor, 451
      - mediastinal ependymoma, 452
      - neuroblastoma/ganglioneuroblastoma, 452-453
      - neurofibroma, 453
      - neurofibromatosis, 453-454
      - paraganglioma, 454
      - pigmented neuroectodermal tumor of infancy, 454
      - primitive neuroectodermal tumor (PNET), 454-455
      - schwannoma (neurilemmoma/neurinoma), 455
  - Neuroma, soft tissue neuroectodermal tumors, 693-695
  - Neuronal cell tumors
    - central neurocytoma, 54-55
    - dysembryoplastic neuroepithelial tumor, 55-56
  - Neurothekeoma, 695-696
  - Neurotropic-desmoplastic melanoma, soft tissue neuroectodermal tumors and, 696
  - Nipple diseases—Paget disease, 146-147
  - Nodal marginal zone B-cell lymphoma, mature B cell lymphoid neoplasms and, 487-488
  - Nodular fasciitis, soft tissue fibroblastic tumors, 663-664
  - Nodular hyperplasia (multinodular goiter), 97-98
  - Nodular regenerative hyperplasia, 337-338
  - Nodular tenosynovitis, 649-650
  - Nonfunctioning endocrine tumors, 362
  - Non-Hodgkin lymphoma, 256, 276, 444, 481, 488-489
  - Non-neoplastic lesions of salivary glands
    - necrotizing sialometaplasia, 570-571
  - Nonossifying fibroma, 606-607
  - Nonspecific interstitial pneumonia/fibrosis, 402
- O**
- Odontogenic cysts
    - dentigerous cyst, 561
    - eruption cyst, 561-562
    - gingival cyst of adults, 562
    - gingival cyst of children, 562
    - glandular odontogenic cyst, 562-563
    - lateral periodontal cyst, 563
    - odontogenic keratocyst, 563-565
    - radicular cyst, 564
  - Odontogenic fibroma, 557-558
  - Odontogenic keratocyst, 563-565
  - Odontogenic myxoma, 557
  - Odontogenic tumors
    - adenomatoid odontogenic tumor, 556-557
    - ameloblastic fibroma, 559-560
    - ameloblastoma, 554-555
    - calcifying epithelial odontogenic tumor (Pindborg tumor), 555-556
    - cementoblastoma, 558-559
    - odontogenic fibroma, 557-558
    - odontogenic myxoma, 557
    - odontoma, 559
    - squamous odontogenic tumor, 560-561
  - Odontoma, 559
  - Oldfield syndrome, 288, 288
  - Olfactory neuroblastoma, 370-371
  - Oligocystic adenoma, cystic neoplasms and, 351-352
  - Oligodendroglial neoplasms
    - ganglioglioma/gangliocytoma, 56-57
    - oligodendroglioma, 57-59
      - malignant or anaplastic, 58
  - Oligodendroglioma, 57-59

## Ollier—Ovary

- Ollier disease, 594-595
- Oncocytic (Hürthle cell) tumor, 103-105  
 adenoma, 103-104  
 carcinoma, 104-105
- Oncocytic carcinoma, salivary glands, 578-579
- Oncocytic metaplasia, nodular/diffuse oncocytosis, 586-587
- Oncocytic papilloma (cylindrical cell papilloma), 373-374
- Oncocytoma (oncocytic metaplasia, nodular/diffuse oncocytosis)  
 salivary glands, 586-587
- Oncocytoma, of kidney, 532-533
- Oral cavity  
 squamous cell carcinoma  
 buccal mucosa, 367  
 floor of mouth, 367  
 general findings, 365-367  
 gingiva, 367  
 lip, 367-368  
 oropharynx, 368  
 palate, 368  
 tongue, 368  
 tonsil, 368  
 verrucous carcinoma, 368-370
- Oropharynx, 368  
 specimen handling, 365
- Oropharynxsquamous cell carcinoma, 368
- Orthopedic procedures. *See* Bone and joints
- Ossifying fibroma of long bones, 607-608
- Ossifying fibromyxoid tumor, 710-711
- Osteitis deformans, 616
- Osteoblastoma, benign osteoblastic lesions, 597-598
- Osteochondroma  
 cartilage lesions (benign) and, 595-596  
 multiple, 596
- Osteofibrous dysplasia, 607-608
- Osteoid osteoma, benign osteoblastic lesions, 598-599  
 juxta-articular, 599  
 long tubular bones, 598  
 small bones of hands and feet, 598  
 subperiosteal, 598  
 vertebral column, 598
- Osteoporosis circumscripta, 616
- Osteosarcoma  
 conventional (intramedullary) osteosarcoma, 621-623  
 intracortical osteosarcoma, 623  
 parosteal (juxtacortical) osteosarcoma, 623-624  
 periosteal osteosarcoma, 624-625  
 telangiectatic osteosarcoma, 625  
 well-differentiated intramedullary osteosarcoma, 625-626
- Osteosarcoma, extraskeletal, 638-639
- Ovary  
 germ cell tumors  
 choriocarcinoma, 190-191  
 dysgerminoma, 191-192  
 embryonal carcinoma, 192-193  
 gonadoblastoma, 196-197  
 mixed malignant germ cell tumors, 196  
 polyembryoma, 193-194  
 yolk sac tumor (endodermal sinus tumor), 194-196  
 intraoperative consultation, 190  
 miscellaneous tumors  
 small cell carcinoma  
 hypercalcemic type, 226-227  
 pulmonary type, 228  
 Sertoli-stromal cell tumors  
 Sertoli cell tumor, 197-198  
 Sertoli-Leydig cell tumor, 198-201  
 sex cord tumor with annular tubules, 201-202  
 sex cord-stromal cell tumors  
 adult granulosa cell tumor, 202-203  
 juvenile granulosa cell tumor, 203-204  
 specimen handling, 190  
 steroid cell tumors  
 Leydig cell tumor, 204-205  
 steroid cell tumor (not otherwise specified), 205-206  
 stromal tumors  
 fibroma/cellular fibroma, 206-207  
 sclerosing stromal tumor, 208  
 thecoma, 208-209  
 surface epithelial-stromal tumors  
 clear cell tumors, 216-217  
 endometrioid tumors, 215-216  
 mucinous tumors, 212-214  
 serous tumors, 209-212  
 transitional cell tumors, 217-218  
 teratomas  
 carcinoid tumors, 219-222  
 immature teratoma, 222-223  
 mature cystic teratoma (dermoid cyst), 223-225  
 mature teratoma (solid), 225  
 struma ovarii, 225-226

## Paget—Perineurioma

**P**

## Paget disease

- breasts and, 146-147
- osteitis deformans, 616
- vulvar, 186-187

## Palate squamous cell carcinoma, 368

## Pancreas

## endocrine tumors

- general findings, 359-360
- poorly differentiated
  - small cell carcinom, 362
- well-differentiated
  - enterochromaffin cell tumor, 361-362
  - gastrinoma, 361
  - glucagonoma, 361
  - insulinoma, 360
  - nonfunctioning tumors, 362
  - somatostatinoma, 361
  - VIPoma, 361

## intraductal papillary-mucinous tumor (IPMN)

- adenoma, 354
- general findings, 353-354
- intraductal carcinoma (non-invasive), 354
- papillary -mucinous carcinoma, 354
- tumors of borderline malignant potential, 354-355

## intraoperative consultation, 346-347

## mucinous cystic neoplasms

- mucinous cystadenocarcinoma, 352
- mucinous cystadenoma, 352
- mucinous cystic tumor of borderline malignant potential, 352-353

## pancreatic ductal adenocarcinoma, 347-349

## rare exocrine tumors

- acinar cell carcinoma, 355-356
- pancreatoblastoma, 358-359
- solid-pseudopapillary epithelial tumor, 356-357

## serous cystic neoplasms

- serous cystadenocarcinoma, 349-350
- serous microcystic adenoma, 350-351
- serous oligocystic adenoma, 351-352

## specimen handling, 347

## Pancreatic duct tumors, ductal adenocarcinoma, 347-349

## Pancreatic intraepithelial neoplasia, 347

## Papillary carcinoma, 105-108

- as papillary lesion of the breast, 123-124

Papillary carcinoma of the breast, lobular carcinoma in situ, 124-126

Papillary fibroelastoma, cardiac tumors, 10-11

Papillary hidradenoma, of the vulva, 187

## Papillary lesion of the breast

- atypical papilloma, 122
- carcinoma arising in a papilloma, 122-123
- papillary carcinoma, 123-124
- papilloma, 120
- papillomatosis, 120-121
- sclerosing papilloma, 121-122

Papillary squamous cell carcinoma, 386-387

Papilloma, as papillary lesion of the breast, 120

Papillomatosis, as papillary lesion of the breast, 120-121

Paraganglioma, of the mediastinum, 454

## Paranasal sinuses

- Ewing sarcoma, 371-372
- melanotic neuroectodermal tumor of infancy, 372
- olfactory neuroblastoma , 370-371
- oncocytic papilloma, 373-374
- primitive neuroectodermal tumor (PNET), 371-372
- Schneiderian papilloma, 372-373
- sinonasal carcinoma, 374-377

## Paratesticular structures tumor

- adenomatoid tumor, 513-514

## Parathyroid gland

- intraoperative consultation, 82
- parathyroid adenoma, 84-86
- parathyroid carcinoma, 86-87
- parathyroid hyperplasia, 82-84
- specimen handling, 82

Parathyroid adenoma, 84-86

Parathyroid carcinoma, 86-87

Parathyroid hyperplasia, 82-84

Parosteal (juxtacortical) osteosarcoma, 623-624

Partial hydatidiform mole, trophoblastic disease and, 158-159

Peribiliary gland hamartoma, 320-321

Pericytes, 706

Perineurioma, 696-697

## Periosteal—Primary

- Periosteal chondroma (juxtacortical chondroma), 596-597
- Periosteal osteosarcoma, 624-625
- Peripheral neuroepithelioma, 697-698
- Peripheral T-cell lymphoma (unspecified), 495
- Peritoneum
- diffuse lesions
    - malignant mesothelioma, 439-440
  - discrete lesions
    - solitary fibrous tumor (localized fibrous mesothelioma), 441-442
- Peutz-Jeghers syndrome, 152, 288
- Pheochromocytoma, 75-78
- Physaliphorous cells, in chordoma 630
- Phyllodes tumor, biphasic tumors of the breast, 128-129
- Pigmented neuroectodermal tumor of infancy, of the mediastinum, 454
- Pigmented villonodular bursitis, 648-649
- pigmented villonodular synovitis (diffuse-type giant tumor), 626-627
- Pilocytic astrocytoma, 40-41
- Pindborg tumor, 555-556
- Pineal gland tumors
- pineoblastoma, 62-63
  - pineocytoma, 63-64
- Pineoblastoma, 62-63
- Pineocytoma, 63-64
- Pituitary adenoma, 89-90
- Pituitary gland
- craniopharyngioma, 87-89
  - intraoperative consultation, 87
  - pituitary adenoma, 89-90
  - specimen handling, 87
- Placental site trophoblastic tumor, 157-158
- Plasma cell neoplasms, 486-487
- Pleomorphic adenoma
- of lung, 425-426
  - salivary glands and, 582-583
- Pleomorphic lipoma, 666
- Pleomorphic malignant fibrous histiocytoma, 646-648
- Pleomorphic xanthoastrocytoma, 42
- Pleura/peritoneum
- diffuse lesions
    - malignant mesothelioma, 439-440
  - discrete lesions
    - solitary fibrous tumor (localized fibrous mesothelioma), 441-442
- Pleuropulmonary blastoma, 428
- PNET, 371-372, 454-455, 620, 697-698
- Polyarteritis nodosa, 23-24
- Polyembryoma
- germ cell tumors
    - ovary, 193-194
- Polymorphous low-grade adenocarcinoma, salivary glands, 575-576
- Polyps. *See also* Colon/rectum; Polyps
- giant condyloma (verrucous carcinoma), 285
  - intestinal polyps, 282-285
  - multiple polyp syndromes
    - Cowden disease (multiple hamartomatous syndrome), 57, 100, 285, 288, 667
    - Cronkhite-Canada syndrome, 254, 286
    - Devon family syndrome, 286
    - familial adenomatous polyposis, 286
    - familial juvenile polyposis, 286
    - Gardner syndrome, 107, 281, 287, 655
    - hereditary nonpolyposis colorectal cancer, 287, 349
    - intestinal ganglioneuromatosis, 84, 287-288, 695
    - Oldfield syndrome, 288
    - Peutz-Jeghers syndrome, 288
    - Ravalcaba-Myhre-Smith syndrome, 288
    - Torre-Muir syndrome, 288
    - Turcot syndrome, 288-289
- Porcelain gallbladder, 343
- Poststreptococcal glomerulonephritis, 533-534
- Peutz-Jeghers syndrome, 288
- Primary biliary cirrhosis, 309-310
- Primary cardiac sarcomas, 13-16
- Primary sclerosing cholangitis, 311-312

## Primitive—Rothmund-Thompson

Primitive neuroectodermal tumor (PNET), 371-372, 454-455, 620, 697-698

Progressive transformation of germinal centers, 477-478

Proliferative synovitis, 648-649

Prostate

adenocarcinoma, 542

grade (Gleason system), 542-545

prostatic infection, 546

prostatic nodular hyperplasia, 545-546

Prostatic infections, of prostate, 546

Prostatic nodular hyperplasia, of prostate, 545-546

Proteus syndrome, 667

Psammomatous melanotic schwannoma, 687

Pseudoepitheliomatous hyperplasia, 684

Pseudoangiomatous stromal hyperplasia, as vascular lesion of the breast, 141

Pseudogout, tophaceous, 617-618

Pulmonary alveolar proteinosis, 406-407

Pulmonary chemodectomas, 435

Pulmonary eosinophilic granuloma, 426-427

Pulmonary sequestration (extralobar/intralobar), 393-394

Pulmonary type small cell carcinoma  
ovary, 228

## Q

Quervain, de

thyroiditis, 94

## R

Radial scar of the breast, 115-116

Radicular cyst, odontogenic cysts and, 564

Rapidly progressive (crescentic) glomerulonephritis, 534-535

Ravalcaba-Myhre-Smith syndrome, 288, 288

Raynaud phenomenon, primary biliary cirrhosis and, 310

Rectum

neoplastic

adenocarcinoma, 278-281

giant condyloma (verrucous carcinoma), 285

intestinal polyps, 282-285

multiple polyp syndromes, 285-289

neuroendocrine tumors of rectum, 291-292

non-neoplastic

collagenous colitis, 268-269

graft-versus-host disease (GVHD), 269-270

Hirschsprung disease, 270-272

ischemic colitis, 272-273

lymphatic colitis, 273-274

solitary rectal ulcer syndrome, 277-278

ulcerative colitis, 274-277

Reinke, crystals of, 509

Renal cell carcinoma, adult tumors/tumorlike conditions of kidney, 524-528

Renal cortical adenoma (tubulo-papillary adenoma), adult tumors/tumorlike conditions of kidney, 531

Renomedullary interstitial cell tumor, adult tumors/tumorlike conditions of kidney, 533

Reproductive tract. *See* Female reproductive tract;  
Male reproductive system

Respiratory bronchiolitis-associated interstitial lung disease, 401

Reticulum cell sarcoma/tumor, 468-469

Retinal anlage tumor, 686

Retinoblastoma, 48-49

Rhabdoid tumor, 45-46

pediatric tumors of kidney, 522-523

Rhabdomyoma, 677-678

cardiac tumors, 11-12

Rhabdomyomatosis, 11

Rhabdomyosarcoma, 678-681

Riedel (fibrosing) thyroiditis

Rokitansky protruberances, 224

rosebud, 760

Rosenthal fibers, 41

Rothmund-Thompson syndrome, 622

## Salivary—Sex

**S**

- Salivary duct carcinoma, 579-580
- Salivary gland type tumors
- acinic cell carcinoma, 422
  - adenoid cystic carcinoma, 422-423
  - mucoepidermoid carcinoma, 424
  - mucous gland adenoma, 425
  - pleomorphic adenoma, 425-426
- Salivary glands
- benign epithelial tumors
    - basal cell adenoma, 585
    - benign mixed tumor (pleomorphic adenoma), 582-583
    - canalicular adenoma, 586
    - myoepithelioma, 583-584
    - oncocyoma (oncocyctic metaplasia, nodular/diffuse oncocytosis), 586-587
    - Warthin tumor (cystadenoma lymphomatosum papilliferum), 587-588
  - intraoperative consultation, 570
  - malignant epithelial tumors
    - acinic cell carcinoma, 571-572
    - adenocarcinoma, NOS, 580-581
    - adenoid cystic carcinoma, 574-575
    - carcinoma ex pleomorphic adenoma, 581-582
    - clear cell adenocarcinoma, 577-578
    - epithelial-myoepithelial carcinoma, 576-577
    - mucoepidermoid carcinoma, 573-574
    - oncocyctic carcinoma, 578-579
    - polymorphous low-grade adenocarcinoma, 575-576
    - salivary duct carcinoma, 579-580
  - non-neoplastic lesions
    - necrotizing sialometaplasia, 570-571
  - specimen handling, 570
- Sanderson polster, 98
- Sarcoidosis, 404-405, 470-471
- Sarcomatoid carcinoma, of lung, 418-420
- Schaumann bodies, 404
- Schiller-Duval bodies, 503
- Schimmelbusch disease, 113
- Schneiderian papilloma, 372-373
- Schwannoma
- mediastinal, 455
  - neuroectodermal tumors and, 699-700
- Sclerodactyly, primary biliary cirrhosis and, 310
- Sclerosing (fibrosing) mediastinitis, 466
- Sclerosing adenosis of the breast, 114-115
- Sclerosing epithelioid fibrosarcoma, 657
- Sclerosing hemangioma, 432-433
- Sclerosing papilloma
- as papillary lesions of the breast, 121-122
- Sclerosing stromal tumor
- ovary, 208
- Seminoma, 52
- male reproductive system
    - germ cell tumors, 499-500
- Serous cystic neoplasms
- cystadenocarcinoma of pancreas, 349-350
  - microcystic adenoma of pancreas, 350-351
  - oligocystic adenoma of pancreas, 351-352
- Serous tumors
- surface epithelial-stromal tumors
    - ovary, 209-212
- Sertoli cell tumor
- male reproductive system
    - large cell calcifying, 510
    - sclerosing variant of, 510
    - sex cord/gonadal stromal tumors, 510
  - Sertoli-stromal cell tumors
    - ovary, 197-198
- Sertoli-Leydig cell tumor
- male reproductive system
    - sex cord/gonadal stromal tumors, 511
  - Sertoli-stromal cell tumors
    - ovary, 198-201
- Sertoli-stromal cell tumors
- ovary
    - Sertoli cell tumor, 197-198
    - Sertoli-Leydig cell tumor, 198-201
    - sex cord tumor with annular tubules, 201-202
- Sex cord tumor with annular tubules, 197
- Sertoli-stromal cell tumors
    - ovary, 201-202

## Sex—Soft

## Sex cord/gonadal stromal tumors

## male reproductive system

large cell calcifying Sertoli cell tumor, 511-512

Leydig cell tumor, 508-509

Sertoli cell tumor, 510

Sertoli-Leydig cell tumor, 511

## ovary

adult granulosa cell tumor, 202-203

juvenile granulosa cell tumor, 203-204

## Sialo-odontogenic cyst, 562-563

## Sinonasal carcinoma, 374-377

## Sinus histiocytosis with massive lymphadenopathy (Rosai-Dorfman disease), 476-477

## Sjögren syndrome, 310

Skeletal system. *See* Bones and joints

## Small cell carcinoma

endocrine tumors and, 362

of lung, 410-411

## ovary

hypercalcemic type, 226-227

pulmonary type, 228

## Small intestine

## neoplastic

neuroendocrine tumors of duodenum, 267-268

## non-neoplastic

acute self-limited enterocolitis, 259-260

celiac disease, 261-262

Crohn disease, 262-265

microvillous inclusion disease, 265-266

Whipple disease, 266

## Soft tissue

## extraskeletal osseous/cartilaginous tumors

extraskeletal chondrosarcoma, 636-638

extraskeletal osteosarcoma, 638-639

myositis ossificans, 639-640

## fibroblastic/myofibroblastic tumors

calcifying aponeurotic fibroma, 651-652

elastofibroma, 652-653

fibroma of tendon sheath, 653

fibromatosis, 654-656

fibrosarcoma, 656-657

infantile digital fibromatosis, 657-658

inflammatory myofibroblastic tumor, 658-659

low-grade fibromyxoid sarcoma, 650-660

low-grade myofibroblastic sarcoma, 660

myofibroma/myofibromatosis, 660-661

myxofibrosarcoma, 662-663

myxoinflammatory fibroblastic sarcoma, 661-662

nodular fasciitis, 663-664

## fibrohistiocytic tumors

atypical fibroxanthoma, 640-641

dermatofibrosarcoma protuberans, 641-642

fibrous histiocytoma, 642-644

giant cell fibroblastoma, 644-645

juvenile xanthogranuloma, 645

malignant giant cell tumor of tendon

sheath/PVNS, 646

pleomorphic malignant fibrous histiocytoma, 646-648

tenosynovial giant cell tumor

diffuse type, 648-649

localized type, 649-650

xanthoma, 650-651

## intraoperative consultation, 636

## lipomatous tumors

hibernoma, 664-665

lipoblastoma/lipoblastomatosis, 665

lipoma, 665-667

liposarcoma, 667-669

## lymphatic tumors

lymphangioma, 670

lymphangiomatosis, 671

lymphangiomyoma/lymphangiomyomatosis, 671-672

lymphangiosarcoma, 673

## myogenic tumors

leiomyoma, 673-675

leiomyosarcoma, 675-677

epithelioid leiomyosarcoma, 675

myxoid leiomyosarcoma, 675

inflammatory leiomyosarcoma, 675

rhabdomyoma, 677-678

rhabdomyosarcoma, 678-681

## neuroectodermal tumors

clear cell sarcoma, 681-682

extraskeletal Ewing sarcoma, 682-683

granular cell tumors, 683-684

malignant peripheral nerve sheath tumor, 684-686

melanotic neuroectodermal tumor of infancy, 686

melanotic schwannoma, 687

Merkel cell carcinoma, 688

neurofibroma, 689-690

neurofibromatosis, 690-693

neuroma, 693-695

neurothekeoma, 695-696

neurotropic-desmoplastic melanoma, 696

perineurioma, 696-697

PNET/peripheral neuroepithelioma, 697-698

schwannoma (neurilemmoma), 699-700

## specimen handling, 636

## Soft—Stewart-Treves

## Soft tissue (continued)

## tumors of uncertain histogenesis

- alveolar soft part sarcoma, 700-701
- angiomatoid fibrous histiocytoma, 701-702
- desmoplastic small round cell tumor, 702-703
- epithelioid sarcoma, 703-704
- fibrous hamartoma of infancy, 704-705
- giant cell angiofibroma, 705-706
- hemangiopericytoma, 706-707
- malignant extrarenal rhabdoid tumor, 707-708
- malignant mesenchymoma, 708
- myxoma, 708-710
- ossifying fibromyxoid tumor, 710-711
- synovial sarcoma, 711-713

## vascular tumors

- angiosarcoma, 713-714
- glomus tumor, 714-715
- hemangioendothelioma, 715-717
- hemangioma, 718-721
- Kaposi sarcoma, 721-723
- myopericytoma, 723

Solid variant, of intraductal carcinoma, 118

Solitary bone cyst (unicameral bone cyst), 601

Solitary fibrous tumor (localized fibrous mesothelioma), 439-440

Solitary rectal ulcer syndrome, 277-278

Somatostatinoma, endocrine tumors, 361

Specimen handling, 82, 87

- bones/joints, 590
- breast, 112
- central nervous system, 33
- female reproductive tract, 151
- gastrointestinal tract, 232
- liver/gallbladder, 294
- lung, 391
- lymph nodes, 468
- male reproductive system, 498
- mediastinum, 444
- ovary, 190
- pancreas, 347

- parathyroid gland, 82
- pituitary gland, 87
- salivary glands, 570
- soft tissue, 636
- upper aerodigestive tract, 365
- urinary tract, 516-517

## Spermatocytic seminoma

- male reproductive system
  - germ cell tumors, 500-501

Spindle cell carcinoma, 385-386

Spindle cell lipoma, 666

Spindle epithelial tumor with thymus-like elements (SETTLE), mediastinum, 465

Spirocholactone bodies, 68

Splenic marginal zone lymphoma, mature B cell lymphoid neoplasms, 488

Squamous cell carcinoma, 380-383

- cervix, 155-157
- of esophagus, 238-240
- of lung, 408-409
- oral cavity/oropharynx
  - buccal mucosa, 367
  - floor of mouth, 367
  - general findings, 365-367
  - gingiva, 367
  - lip, 367-368
  - oropharynx, 368
  - palate, 368
  - tongue, 368
  - tonsil, 368
  - verrucous carcinoma, 368-370

Squamous odontogenic tumor

- odontogenic tumors, 560-561

Steroid cell tumors

- ovary
  - Leydig cell tumor, 204-205
  - steroid cell tumor (not otherwise specified), 205-206

Stewart-Treves syndrome, 713

## Stomach—Syndromes

## Stomach

- gastric leiomyoma, 248-249
- gastrointestinal stromal tumors, 249-252
- glomus tumor, 252-253
- hyperplastic polyp, 253-254
- inflammatory fibroid polyp, 255-256
- mucosa-associated lymphoid tissue lymphoma (MALToma), 256-258
- neoplastic
  - adenocarcinoma, 244-247
  - fundic gland polyp, 247-248
  - gastric leiomyoma, 248-249
  - gastrointestinal stromal tumors, 249-252
  - glomus tumor, 252-253
  - hyperplastic polyp, 253-254
  - inflammatory fibroid polyp, 255-256
  - mucosa-associated lymphoid tissue lymphoma (MALToma), 256-258
  - neuroendocrine tumors, 258-259
- neuroendocrine tumors, 258-259
- non-neoplastic
  - autoimmune gastritis, 240-242
  - Helicobacter pylori* gastritis, 242-243
  - multifocal atrophic gastritis, 243-244

## Stromal nodule

- as benign lesion of the uterus, 172-173

## Stromal tumors

- male reproductive system
  - large cell calcifying Sertoli cell tumor, 511-512
  - Leydig cell tumor, 508-509
  - Sertoli cell tumor, 510
  - Sertoli-Leydig cell tumor, 511
- ovary
  - fibroma/cellular fibroma, 206-207
  - sclerosing stromal tumor, 208
  - thecoma, 208-209

## Struma ovarii

- teratomas
  - ovary, 225-226

## Subependymal giant cell astrocytoma (tuberous sclerosis), 43-44

## Subependymoma, 51

Sugar tumor. *See* Clear cell tumor

## Superficial malignant fibrous histiocyctoms, 640-641

## Surface epithelial-stromal tumors

- ovary
  - clear cell tumors, 216-217
  - endometrioid tumors, 215-216
  - mucinous tumors, 212-214
  - serous tumors, 209-212
  - transitional cell tumors, 217-218

## Syndromes

- ataxia-telangiectasia, 726
- Bannayan-Zonana syndrome, 667
- Beckwith-Wiedemann syndrome, 519, 726
- cardiac
  - Ehlers-Danlos syndrome, 17
  - Marfan syndrome, 18
- Carney syndrome, 511, 687, 710, 726-727
- Carney triad, 727
- Churg-Strauss syndrome, 27-28, 398, 406
- Coffin-Siris syndrome, 727
- Denys-Drash syndrome, 518-519
- Down syndrome, 262, 272, 343, 507
- familial medullary thyroid cancer, 727
- Fröhlich syndrome, 667
- Goltz syndrome, 611
- Gorlin syndrome (nevoid basal cell carcinoma syndrome), 47, 62, 207, 727
- Jaffe-Campanacci syndrome, 607
- Kasabach-Merritt syndrome, 329, 717, 721
- Klippel-Trenaunay syndrome, 519
- Li-Fraumeni syndrome, 71, 622, 727
- Mazabraud syndrome, 710, 727
- McCune-Albright syndrome, 710, 727-728
- multiple endocrine neoplastic (MEN) syndromes, 728-729
- multiple polyp syndromes
  - Cowden disease (multiple hamartomatous syndrome), 57, 100, 285, 288, 667
  - Cronkhite-Canada syndrome, 254, 286
  - Devon family syndrome, 286
  - familial adenomatous polyposis, 286
  - familial juvenile polyposis, 286
  - Gardner syndrome, 107, 281, 287, 655
  - hereditary non-polyposis colorectal cancer, 732
  - intestinal ganglioneuromatosis, 84, 287-288, 695
  - multiple hyperplastic polyposis syndrome, 288
  - Oldfield syndrome, 288
  - Peutz-Jeghers syndrome, 288
  - Ravalcaba-Myhre-Smith syndrome, 288
  - Torre-Muir syndrome, 288
  - Turcot syndrome, 288
- Proteus syndrome, 667
- Rothmund-Thompson syndrome, 622
- Stewart-Treves syndrome, 713
- tuberous sclerosis (Bourneville disease/epiloia), 729-730
- von Hippel-Lindau disease (3p25-26), 730
- WAGR syndrome, 518-519
- Zollinger-Ellison syndrome, 730

## Synovial—Toxoplasmosis

## Synovial chondromatosis

- synovial lesions
- Bones/joints, 627-628

## Synovial lesions

- bones/joints
- pigmented villonodular synovitis (diffuse-type giant tumor), 626-627
- synovial chondromatosis, 627-628

## Synovial sarcoma, 711-713

## Synovitis, 648-649

**T**

## Takayasu arteritis, 22-23

## Telangiectasia, primary biliary cirrhosis and, 310

## Telangiectatic osteosarcoma, 625

## Temporal arteritis, 21-22

## Tendon sheath fibroma, 653

## Tenosynovial giant cell tumor, soft tissue, 648-650

## Teratomas

- germ cell tumors, 54, 506-507
- immature, 54, 445-448
- of the mediastinum, 447-449
- ovary
  - carcinoid tumors, 219-222
  - dermoid cyst, 223-225
  - immature teratoma, 222-223
  - mature cystic teratoma, 223-225
  - mature teratoma, 225
  - solid teratoma, 225
  - struma ovarii, 225-226

## Thecoma

- stromal tumors
- ovary, 208-209

## Thromboangiitis obliterans (Buerger disease), 26

## Thymic carcinoid, mediastinum, 458-460

## Thymic carcinoma

- mediastinum, 460-462

## Thymic/branchial pouch differentiation tumors

- mediastinum
  - carcinoma showing thymus-like elements (CASTLE), 462-463
  - ectopic cervical thymoma, 463-464
  - ectopic hamartomatous thymoma, 464-465
  - sclerosing (fibrosing) mediastinitis, 466
  - spindle epithelial tumor with thymus-like elements (SETTLE), 465

## Thymoma

- mediastinum, 455-458, 463-465

## Thymus

- mediastinum
  - thymic carcinoid, 458-460
  - thymic carcinoma, 460-462
  - thymoma, 455-458

## Thyroid gland

- tumor-like conditions
  - fibrosing (Riedel) thyroiditis, 92-93
  - Graves disease (diffuse toxic goiter), 96-97
  - Hashimoto thyroiditis, 93-94
  - intraoperative consultation, 91-92
  - nodular hyperplasia (multinodular goiter), 97-98
  - specimen handling, 92
  - thyroiditis, 94-96
- tumors
  - follicular adenoma, 99-100
  - follicular carcinoma, 100-101
  - medullary carcinoma, 101-103
  - oncocytic (Hürthle cell) adenoma, 103-104
  - oncocytic (Hürthle cell) carcinoma, 104-105
  - papillary carcinoma, 105-108
  - poorly differentiated (insular) carcinoma, 108-109
  - undifferentiated (anaplastic) carcinoma, 109-110

## Thyroiditis, 92-96

## Tongue and squamous cell carcinoma, 368

## Tonsil and squamous cell carcinoma, 368

## Tophaceous gout, 616-617

## Tophaceous pseudogout (chondrocalcinosis), 617-618

## TORCH (toxoplasmosis, rubella, CMV, and herpes simplex virus) titers, 309

## Torre-Muir syndrome, 288

## Touton giant cells, 643

## Toxoplasmosis, 471-472

## Trachea—Urinary

## Trachea

- adenosquamous carcinoma, 383-384
- basaloid squamous cell carcinoma, 384-385
- intraoperative consultation, 364-365
- lymphoepithelial carcinoma, 387
- papillary squamous cell carcinoma, 386-387
- spindle cell carcinoma, 385-386
- squamous cell carcinoma, 380-383

## Transitional cell tumors

- surface epithelial-stromal tumors
- ovary, 217-218

## Triton tumor, malignant, 685

## Trophoblastic disease

- choriocarcinoma, 162-163
- complete hydatidiform mole, 159-161
- invasive hydatidiform mole, 161-162
- partial hydatidiform mole, 158-159
- placental site trophoblastic tumor, 157-158

## Trousseau sign, 347

## Tuberous sclerosis (Bourneville disease/epiloia), 729-730

## Tubulointerstitial nephritis

- Ask-Upmark kidney, 541-542
- xanthogranulomatous pyelonephritis, 541

## Tubular adenoma of the breast, 116-117

## Tubular carcinoma, as infiltrating carcinoma of the breast, 132-133

## Tubulo-papillary adenoma

- adult tumors/tumorlike conditions of kidney, 531

## Tumor containing germ cell/sex cord/gonadal stromal elements

- male reproductive system
- gonadoblastoma, 512-513

## Tumor of borderline malignant potential, cystic neoplasms and, 352-353

## Tumors of meningotheial cells

- atypical anaplastic (malignant) meningiomas, 59-60
- meningioma, 60-62

## Tumors of paratesticular structures

- male reproductive system
- adenomatoid tumor, 513-514

## Tumors of pineal gland

- pineoblastoma, 62-63
- pineocytoma, 63-64

## Tumors of uncertain origin, hemangioblastoma, 64-65

## Turcot syndrome, 288-289

## U

## Ulcerative colitis, 274-277

## Undifferentiated (anaplastic) carcinoma, 109-110

## Undifferentiated sarcoma (embryonal), 324-325

## Upper aerodigestive tract

## hypopharynx/larynx/trachea

- adenosquamous carcinoma, 383-384
- basaloid squamous cell carcinoma, 384-385
- lymphoepithelial carcinoma, 387
- papillary squamous cell carcinoma, 386-387
- spindle cell carcinoma, 385-386
- squamous cell carcinoma, 380-383

## intraoperative consultation, 364-365

## nasal cavity/paranasal sinuses

- Ewing sarcoma/primitive neuroectodermal tumor (PNET), 371-372
- melanotic neuroectodermal tumor of infancy, 372
- olfactory neuroblastoma (esthesioneuroblastoma), 370-371
- oncocyctic papilloma (cylindrical cell papilloma), 373-374
- Schneiderian papilloma, 372-373
- sinonasal carcinoma, 374-377

## nasopharynx

- nasopharyngeal angiofibroma, 379-380
- nasopharyngeal carcinoma, 377-379

## oral cavity/oropharynx

## squamous cell carcinoma

- buccal mucosa, 367
- floor of mouth, 367
- general findings, 365-367
- gingiva, 367
- lip, 367-368
- oropharynx, 368
- palate, 368
- tongue, 368
- tonsil, 368

- squamous cell carcinoma variants
- verrucous carcinoma, 368-370

## specimen handling, 365

## Urinary bladder

- metaplastic lesions, 546-547
- urothelial carcinoma, 547-551
- urothelial papilloma, 551-552

## Urinary—Vasculitis

## Urinary tract

intraoperative consultation, 516

## kidney

## adult tumors/tumorlike conditions

- angiomyolipoma, 528-530
- medullary fibroma (renomedullary interstitial cell tumor), 533
- metanephric adenoma, 530-531
- oncocytoma, 532-533
- renal cell carcinoma, 524-528
- renal cortical adenoma (tubulo-papillary adenoma), 531

## glomerular diseases

- acute proliferative glomerulonephritis, 533-534
- chronic glomerulonephritis, 540
- focal proliferative/necrotizing glomerulonephritis, 540
- focal segmental glomerulosclerosis, 537-538
- IgA nephropathy (Berger disease), 539-540
- membranoproliferative glomerulonephritis, 538-539
- membranous glomerulonephritis, 535-536
- membranous glomerulopathy, 535-536
- minimal change disease (lipoid nephrosis), 536-537
- rapidly progressive (crescentic) glomerulonephritis, 534-535

## pediatric tumors/tumorlike conditions

- clear cell sarcoma, 520-522
- cystic nephroma, 523-524
- mesoblastic nephroma, 519-520
- nephroblastoma (Wilms tumor), 517-519
- rhabdoid tumor, 522-523

## tubulointerstitial nephritis

- Ask-Upmark kidney, 541-542
- xanthogranulomatous pyelonephritis, 541

## prostate

- adenocarcinoma, 542
- grade (Gleason system), 542-545
- prostatic infections, 546
- prostatic nodular hyperplasia, 545-546

## specimen handling, 516-517

## urinary bladder

- metaplastic lesions, 546-547
- urothelial carcinoma, 547-551
- urothelial papilloma, 551-552

Urothelial carcinoma, of urinary bladder, 547-551

Urothelial papilloma, of urinary bladder, 551-552

Usual interstitial pneumonia, 399-400

## Uterus

## benign lesions

- adenofibroma, 163-164
- adenomatoid tumor, 164-165
- adenomyoma/atypical polypoid adenomyoma, 165-166
- adenomyosis, 166
- endometrial hyperplasia, 166-168
- endometrial polyp, 168-169
- intravascular leiomyomatosis, 169-170
- leiomyoma, 170-172
- stromal nodule, 172-173

## malignant lesions

- adenosarcoma, 177-178
- carcinosarcoma (malignant mixed müllerian tumor), 178-179
- endometrial carcinoma, 173-177
- endometrial stromal tumors, 179-181
- leiomyosarcoma, 181-182

## V

Vagina, clear cell carcinoma, 182-184

Variants, 398

Vascular lesions of the breast, pseudoangiomatous stromal hyperplasia, 141

## Vascular tumors

- bacillary angiomatosis, 478
- Kaposi sarcoma, 479
- soft tissue
  - angiosarcoma, 713-714
  - glomus tumor, 714-715
  - hemangioendothelioma, 715-717
  - hemangioma, 718-721
  - Kaposi sarcoma, 721-723
  - myopericytoma, 723

## Vasculitis

- Churg-Strauss syndrome (allergic granulomatosis), 27-28, 398, 406
- cutaneous leukocytoclastic vasculitis, 30
- giant cell (temporal arteritis), 21-22
- granulomatous angitis of central nervous system, 25
- Henoch-Schönlein purpura, 29-30
- Kawasaki disease, 24-25
- microscopic polyangiitis, 28-29
- polyarteritis nodosa, 23-24
- Takayasu arteritis, 22-23
- thromboangiitis obliterans (Buerger disease), 26
- Wegener granulomatosis, 26-27

Veno-occlusive—Zuckerkindl
