

Diagnosis and Management of Breast Disease: A Practical and Multidisciplinary Approach

[16.75 CME Credits]

Thursday, November 12, 2009

	Intraductal and Intralobular Lesions: precursors and in-situ carcinoma	<i>Jean Simpson, MD</i>	8:30am-12:00pm	
	Microinvasion and Minimally Invasive Cancer			
	Columnar and Apocrine Lesions	<i>Frances P. O'Malley, MD, FRCPC</i>	1:30-5:30pm	
	CAP checklist for DCIS, with emphasis on measuring extent of DCIS			
	Alternate method for measuring extent of DCIS	<i>Donald Weaver, MD, FASCP</i>		
	Invasive Carcinoma: diagnosis, classification and grading			
	Illustrative Cases and Videomicroscopy Session			<i>Faculty</i>
	Glass Slide Self-Study Session - (optional)			5:30-9:30pm

Friday, November 13, 2009

	Breast Imaging for the Pathologist Diagnostic Core Biopsy: Imaging correlation and clinical management	<i>Ira J. Bleiweiss, MD, and Susan R. Drossman, MD</i>	8:30am-12:00pm
	Fibroepithelial Lesions	<i>Donald Weaver, MD, FASCP</i>	
	Evaluation of Sentinel and Axillary Lymph Nodes: macrometastases, micrometastases, and isolated tumor cell clusters	<i>Donald Weaver, MD, FASCP</i>	1:30-5:00pm
	Spindle cell lesions (metaplastic ca)		
	Papillary Lesions	<i>Frances P. O'Malley, MD, FRCPC</i>	
	Glass Slide Self-Study Session - (optional)		5:00-9:00pm

Saturday, November 14, 2009

	Estrogen and progesterone receptors	<i>Donald Weaver, MD, FASCP</i>	8:30am-12:00pm
	HER2/neu	<i>Frances P. O'Malley, MD, FRCPC</i>	
	Additional prognostic factors relevant to patient management	<i>Donald Weaver, MD, FASCP</i>
