

Current Issues and Problems in Breast Pathology

[20.75 CME Credits]

Wednesday, June 23, 2010

	Welcome, Introductions	<i>Fattaneh A. Tavassoli, MD, FASCP</i>	8:15am-12:00pm
	Ductal Intraepithelial Neoplasia Diagnostic Criteria and Clinical Implications (Flat Epithelial Atypia, IDH, AIDH, DCIS)		
	Microinvasive Carcinomas		
	Papillary Lesions of the Breast		
	Myoepithelial Lesions of the Breast		
	Low Grade Carcinomas		
	Interactive Session and Slide Review		1:00-4:30pm
	Glass Slide Self-Study (optional)		4:30-8:30pm

Thursday, June 24, 2010

	Prognostic and Predictive Factors in Breast Carcinoma	<i>Veerle Bossuyt, MD</i>	8:00am-12:00pm
	How Various Information in the Pathology Report Impacts Management of the Patient	<i>Bruce Haffty, MD</i>	
	Sentinel Lymph Node Biopsy: Historical, Technical and Clinical Perspective	<i>Donald Lannin, MD</i>	
	Pathologic Assessment of SLN	<i>Fattaneh A. Tavassoli, MD, FASCP</i>	
	Question Period - Interactive Session		
	Needle Core Biopsy and Interdisciplinary Case Presentations	<i>Bruce Haffty, MD, Donald Lannin, MD, and Fattaneh A. Tavassoli, MD, FASCP</i>	1:00-4:30pm
	Interactive Session – Tissue Processing/ Slide Review	<i>Fattaneh A. Tavassoli, MD, FASCP, and Veerle Bossuyt, MD</i>	
	Glass Slide Self-Study (optional)		4:30-8:30pm

Friday, June 25, 2010

	Patterns of Adenosis, Radial Scar and Complex Sclerosing Lesions	<i>Fattaneh A. Tavassoli, MD, FASCP</i>	8:00am-12:00pm
	Lobular Neoplasia - Intraepithelial and Invasive, Classic and Novel Variants		
	Biphasic Tumors of the Breast		
	Diseases of the Nipple		
	Molecular Classification of Breast Carcinomas - Basal-like, Triple Negative, and Metaplastic Carcinomas		1:00-4:30pm
	Interactive Session and Slide Review
