

## **Suggested Subject Areas for Continuing Education\* for Revalidation of Qualification in Cytometry**

1. Immunophenotyping
2. DNA Ploidy Analysis
3. Cytometric Analysis
4. Quality Control/Quality Assurance
5. Laboratory Management/Supervision
6. Safety
7. Instrumentation
8. Laboratory Information Systems
9. Immunodeficiency Diseases
10. Immunoproliferative Disorders
11. Transplantation
12. Immunology
13. Hematology
14. Pathology of Diseases for which Cytometry is a Diagnostic Procedure
15. Molecular Diagnostics

\*Acceptable continuing education is not limited to the subjects on this list. If you are unsure about the acceptability of a subject, please contact the Board of Registry. It is your responsibility to submit certificates to the Board of Registry that list the provider of the course, the subject of the course and the contact hours awarded for each course.
