Guide to the Citation of ASCP Board of Certification Credentials

Certification with No Expiration
There is no time-limit on ASCP certification awarded to individuals who are certified prior to mandatory credential maintenance (1/01/2004 for US certification and 1/1/2012 for International certification). Certification for these individuals does not expire.

ASCP certification credentials are listed with the designation "(ASCP)" after the category initials for US certification and "(ASCPi)" after the category initials for International certification as follows:
Medical Laboratory Technician, MLT(ASCP)
International Medical Laboratory Technician, MLT(ASCPi)

Time Limited Certification
Individuals awarded US or International certification based on the chart below, receive a time-limited certification valid for a three year period. These individuals are required to participate in the Credential Maintenance Program (CMP) to maintain a valid ASCP certification or their certification will expire. Once a certification has expired, these individuals are no longer permitted to use the ASCP credential after their name.

Individuals required to complete the Credential Maintenance Program (CMP) to maintain their certification are required to use the initials "CM" in superscript following (ASCP) and (ASCPi).
[e.g., Mary Jones, MLS(ASCP)CM or Mary Jones MLS(ASCPi)CM]

The goal of the CMP is to demonstrate that laboratory professionals with this designation are completing continuing education requirements for recertification and performing activities to stay current in their practice.

Certification Credentials based on Number/Types of Certification
A. One certification category
   1. Certification is listed before the (ASCP) or (ASCPi) with no comma or space, followed by superscript "CM" if applicable.
      e.g., Susan Smith, MLT(ASCP)CM or Maria Sanchez, MLT(ASCPi)CM

B. Two certification categories
   1. The second certification category is listed immediately after (ASCP) or (ASCPi) with no comma or space
      e.g., Susan Smith, MLS(ASCP)CMBB or Maria Sanchez, MLS(ASCPi)CMMBi
   2. If one of the categories is MT or MLS, it should always be listed before the (ASCP) or (ASCPi) as above regardless of chronology.
3. If multiple certifications exist in the same discipline, the lower level certification should be omitted. For example, Susan Smith, BB(ASCP)SBB becomes Susan Smith, SBB(ASCP).

4. Two categories in separate disciplines, where neither is MT or MLS, are listed in chronological order based on the date received. For example, Susan Smith, HTL(ASCP)SCT.

C. Three or more certification categories
1. Additional categories, listed after the second category, are separated by commas but no spaces. For example, Susan Smith, MLS(ASCP)CMMB,H or Maria Sanchez, MLS(ASCP)iCMMB,CTgyniCM.

D. Certification category and advanced degree
1. The advanced degree always precedes the certification(s). For example, Susan Smith, PhD, MLS(ASCP)iCMMB or Maria Sanchez, PhD, MLS(ASCP)iCMMB.

E. US and International Certification
1. If one of the certifications is a US (ASCP) certification and the other is an International (ASCP)i certification, the US certification should always be listed first regardless of category or chronology. For example, Susan Smith, MB(ASCP), MLS(ASCP)iCM.

F. More than one certification with CMP
1. If more than one certification is in a valid Credential Maintenance Program (CMP) cycle, each certification is followed by the superscript “CM” or “iCM.” For example, Susan Smith, MLS(ASCP)CMMBiCM.

Voluntary Participation in Certification Maintenance
Individuals certified prior to mandatory credential maintenance may participate in the CMP on a voluntary basis by successfully completing the CMP continuing education requirements for their category. They then use the initials “CM” in superscript after their certification [e.g., Mary Jones, MLT(ASCP)CM or MLT(ASCP)iCM] for the period during which the certification maintenance remains valid.

MT/MLS or MP/MB Certification under Voluntary US Credential Maintenance
Under the CMP, the US MT(ASCP) credential becomes MLS(ASCP)CM and the MP(ASCP) credential becomes MB(ASCP)CM. If the individual chooses not to complete CMP in the future, the “CM” is removed and the credential initials revert back to MT(ASCP) or MP(ASCP) with no expiration.

MT/MLS Certification under Voluntary International Credential Maintenance
Under the CMP, the International MT(ASCP)i credential becomes MLS(ASCP)iCM. If the individual chooses not to complete CMP in the future, the “CM” is removed and the credential initials revert back to MT(ASCP)i with no expiration.

Time Limited Qualification
Individuals awarded ASCP qualification receive a time-limited qualification valid for a three year period. These individuals are required to participate in the requalification process to maintain a valid ASCP qualification or their qualification will expire. Once a qualification has expired, these individuals are no longer permitted to use this ASCP credential after their name.

Individuals awarded qualifications are required to use the initials “CM” in superscript following the qualification credential. For example, Susan Smith, QIHCiCM.

The goal of requalification is to demonstrate that laboratory professionals with this credential are completing continuing education requirements for requalification and performing activities to stay current in their practice.

<table>
<thead>
<tr>
<th>Qualification Category</th>
<th>CMP Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>QIA, QCYM, QIHC, QLC, QLI, QLS</td>
<td>All ASCP Qualifications</td>
</tr>
</tbody>
</table>
A. One Qualification Category
   1. The qualification category is listed after the name followed by superscript “CM”.
      e.g., Susan Smith, QIHC\textsuperscript{CM}

B. More than one Qualification Category
   A second qualification is listed after the first qualification separated by a comma and a space
   e.g., Susan Smith, QIHC\textsuperscript{CM}, QLC\textsuperscript{CM}

C. Certification and Qualification
   If the individual has both a certification and a qualification, the certification is listed first as
   described under “Certification Credentials”, followed by (ASCP) or (ASCP\textsuperscript{i}) and the qualification
   follows with no comma or space.
   e.g., Susan Smith, HT(ASCP)QIHC\textsuperscript{CM} or Susan Smith, MT(ASCP\textsuperscript{i})QIHC\textsuperscript{CM}
